

WORKS NOTIFICATION

15 WILLIAM STREET BUILDING DEMOLITION 4 SEPTEMBER - EARLY OCTOBER 2017

Works in preparation for major construction of the Metro Tunnel are continuing in South Yarra with the relocation of utility services underway and service investigations continuing ahead of upcoming works.

What we are doing

To prepare for the construction of the eastern tunnel entrance in 2019, we will be commencing demolition of the acquired property at 15 William Street, which will be used during construction as a support site and laydown area. Demolition works will commence from 4 September and take until early October to complete.

Demolition works will include:

- Installing fencing around the property at 15 William Street
- Installing self-contained site amenities within the South Yarra Sidings Reserve, on the western side of the William Street bridge
- Removing hazardous materials from the building in line with safe handling and disposal guidelines, using a licensed Asbestos removalist
- Demolishing the building using a small excavator
- Loading building materials into bin trucks to be carried away from the site.

What to be aware of

- Kerbside car parks directly in front of 15 William Street will be occupied for the duration of demolition works for the purpose of loading trucks with building material to be removed from site
- There will be medium-high levels of noise during these demolition works. Impacts from noise and dust will be managed in accordance with the Metro Tunnel's Environmental Performance Requirements
- The footpath in front of 15 William Street will be closed to pedestrians; please use the southern footpath on William Street
- Lovers Walk will be closed between Toorak Road and William Street to ensure pedestrian safety in proximity to these demolition works. Pedestrians can access Toorak Road via the southern footpath on William Street.

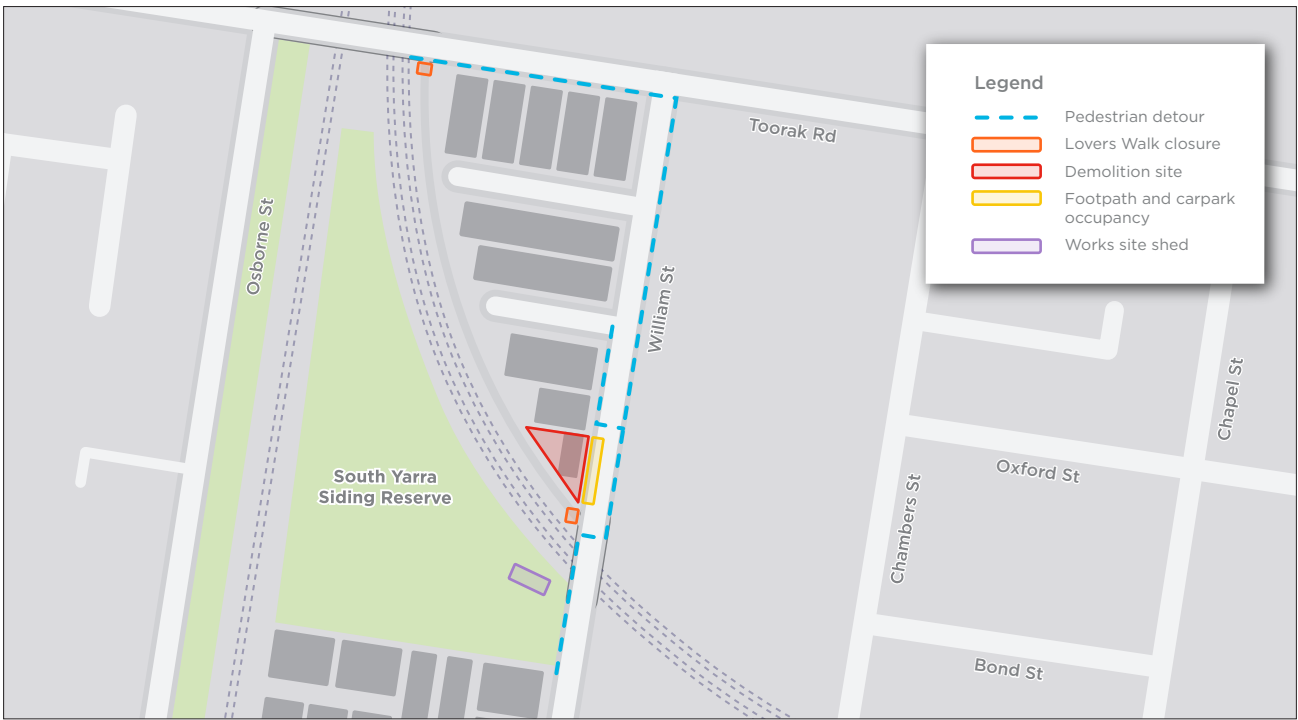

When

- 7am - 6pm, Monday to Friday
- 7am - 1pm, Saturdays
- We will notify residents if there are any significant changes to the program.
