

## WORKS NOTIFICATION

# HOBSONS ROAD, KENSINGTON RETAINING WALL CONSTRUCTION UPDATE 9 DECEMBER 2017 - LATE JANUARY 2018

Works in preparation for major construction of the Metro Tunnel Project are now underway across Melbourne. In Kensington, these works include the removal and relocation of high voltage (HV) transmission towers along Childers Street.

John Holland has been appointed as the Managing Contractor for this package of works.

Construction of a retaining wall along the rail embankment on the Hobsons Road site commenced in October and will continue through until January 2018.

The softer soils located in this area have meant that we need to undertake additional works to ensure the integrity of the embankment whilst works take place.

As a result, we need to temporarily extend our working hours to include additional hours on Saturdays, and also Sundays, commencing from Saturday 9 December 2017.

### What we are doing

- Construction of a retaining wall on the rail corridor embankment to create space for the permanent HV tower that will be located on the southern section of the Hobsons Road site.

### What to be aware of

- These activities will result in intermittent levels of high noise, however on most days the noise levels are expected to be in the low to medium range
- Access to private properties and businesses will be maintained at all times.

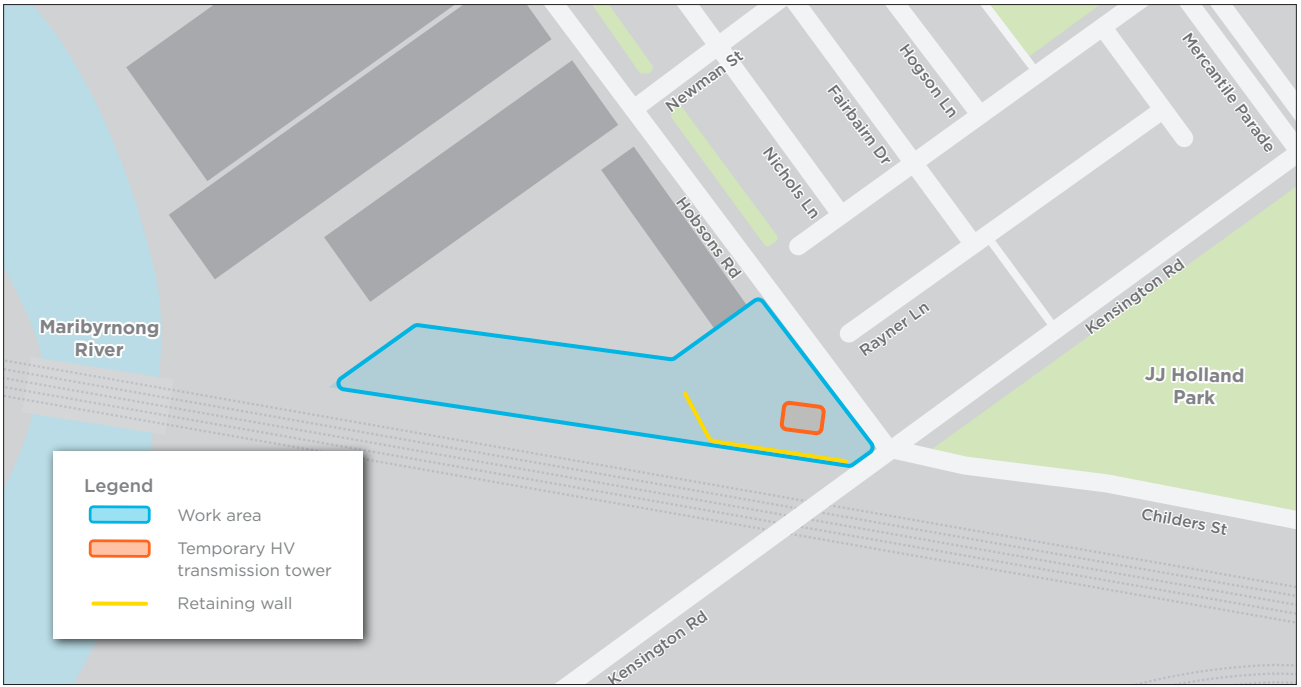

### When

- From 9 December to late January 2018
- 7am - 6pm, Monday to Friday
- 8am - 5pm, Saturdays and Sundays
- Due to the close proximity of the rail corridor, we may need to undertake some evening and night works between 6pm and 6am. Should we be required to undertake further evening and night works, we will notify residents and businesses in advance.
