

WORKS NOTIFICATION

TEMPORARY OFF-PEAK LANE CLOSURE – QUEENSBERRY STREET, CBD NORTH **THURSDAY 9 NOVEMBER 2017**

The Melbourne Metro Rail Authority is undertaking a range of site investigations and technical studies in Melbourne to better understand local ground conditions to assist with planning for the Metro Tunnel Project.

What we are doing

We are installing telemetry data loggers in a number of the existing groundwater monitoring wells already in place across the project alignment, which will enable remote monitoring capabilities. These devices will help us gain updated information about groundwater levels more efficiently, by removing the requirement for our engineers to regularly access the sites to collect data. It will also provide further information about local soil and groundwater conditions to assist with planning for the new tunnels and two new underground stations in the CBD.

One of the groundwater monitoring devices selected to provide these remote monitoring capabilities is located underneath the road surface on Queensberry Street. To install the telemetry data logger, there will be a temporary single lane closure on Queensberry Street, between Bouverie Street and Swanston Street, on Thursday 9 November 2017.

When

- The right lane on Queensberry Street (between Bouverie Street and Swanston Street) will be closed eastbound on **Thursday 9 November** between **9.30am and 3.30pm**.

What's involved?

Activities being undertaken will include:

- Setting up a temporary barrier and traffic management around the site
- Concrete coring over the existing location
- Installing the telemetry logger
- Site clean-up to return to its original (or similar) condition.

What you should be aware of

- Traffic management will direct vehicles, cyclists and pedestrians around the work sites. Please obey any signage on site.
- These works are expected to produce only low levels of noise, with minor noise during concrete coring.

Legend

 Single lane closure and work area

Thurs 9 November: Queensberry Street right lane closure, between Bouverie Street and Swanston Street.
