

## WORKS NOTIFICATION

# REINSTATEMENT WORKS, SOUTH YARRA MAIN SEWER 11 DECEMBER TO LATE DECEMBER

Major works on the Metro Tunnel are underway to support construction of a new underground station in Domain.

John Holland is the Managing Contractor for this package of works, which includes the relocation and reinforcement of the South Yarra Main Sewer beneath the future Anzac (formerly Domain) Station.

With works nearing completion, reinstatement of some traffic conditions are now required.

### What we are doing

- Reinstating street kerb and centre median traffic islands
- Reinstating the road surface.

### What to be aware of

- These works will require the short-term closure of the left turn lane from St Kilda Road onto Albert Road for the duration of works (refer to map overleaf)
- The car parks on the southern leg of Albert Road at the Kings Way end will only be accessible via Kings Way for the duration of works via the u-turn facility

- Following the completion of works, westbound traffic movement through the northern leg of Albert Road will be reinstated
- There may be periods of medium to high level noise associated with these works. Impacts from noise will be managed in accordance with the Metro Tunnel's Environmental Performance Requirements
- Line marking activities will be carried out at night. This activity is expected to produce only low levels of noise.

Further reinstatement activities will occur at the completion of these works. We will provide further information in advance.

### When

- 7am - 6pm, Monday to Friday
- 7am - 1pm, Saturdays

Night works will be required to complete line marking during this period. This activity is expected to produce only low levels of noise.
