

## WORKS NOTIFICATION

### SITE INVESTIGATIONS, COURTNEY STREET

14 - 23 DECEMBER 2017

Major works on the Metro Tunnel Project are ramping up in early in 2018, with the Cross Yarra Partnership (CYP) selected as the preferred contractor to build the Tunnel and Stations Package.

In preparation for these works, CYP is undertaking a range of site investigations between Kensington and South Yarra from September 2017 until March 2018.

Extensive investigations have previously been undertaken along the corridor to assess ground and environmental conditions, and these latest investigations will build on this work to finalise CYP's design and construction methodology for the twin nine kilometre tunnels and five underground stations.

#### What we are doing

Drilling a geotechnical borehole in Courtney Street. This involves:

- Non-destructive drilling to locate underground services
- Setting up a fenced temporary work site in the centre median turning lane at the intersection of Courtney Street and Courtney Place, as shown on the map overleaf
- Temporarily lowering the speed limit to 40 km/h on Courtney Street between Harcourt Street and Villiers Street. Traffic management including signage and traffic controllers will be on site to safely guide you through the area

- A small crew using a drill rig to obtain a soil sample, then filling in the hole
- Reinstating the surface to existing, or similar, condition.

#### When

- **7am - 6pm, Thursday 14 December to Saturday 23 December 2017**
- **7am - 1pm, Saturdays, if required.**

#### Traffic and road impacts

- No right turn in to or out of Courtney Place. Please detour via U-turn at Harcourt Street or Villiers Street, as shown on the map overleaf
- Site fencing may encroach on the inside lanes on either side of the centre median, although vehicular access will be maintained in both directions at all times. Please obey signage and traffic controllers.
