

## WORKS NOTIFICATION

### COCKER ALLEY SERVICE DECOMMISSIONING NIGHT WORKS, CBD PRECINCT 11 - 12 FEBRUARY 2018

Major construction on the Metro Tunnel Project is continuing at the site of the new Town Hall Station at the southern end of Swanston Street in the CBD.

#### What we are doing

- As part of the building demolition on Swanston Street and Port Phillip Arcade, night works are required to decommission existing CitiPower services in Cocker Alley
- This work includes excavation of a hole with a small excavator, cutting and removal of cables and backfilling the hole
- The work may also require some trenching of Cocker Alley from the excavation pit south towards Flinders Street
- The electricity pit in Flinders Lane may need to be accessed during the works.

#### What to be aware of

- These works are expected to generate medium levels of noise during excavation

- Traffic management will be in place to direct traffic and pedestrians around these works. The works will be localised to Cocker Alley and nearby in Flinders Lane
- Local access to waste bins will be maintained throughout works
- Access will be maintained to the Nicholas building goods lift.

#### When

- 7pm, Sunday 11 February to 7am, Monday 12 February 2018

All reasonable efforts will be made to complete works ahead of schedule, subject to weather and ground conditions.

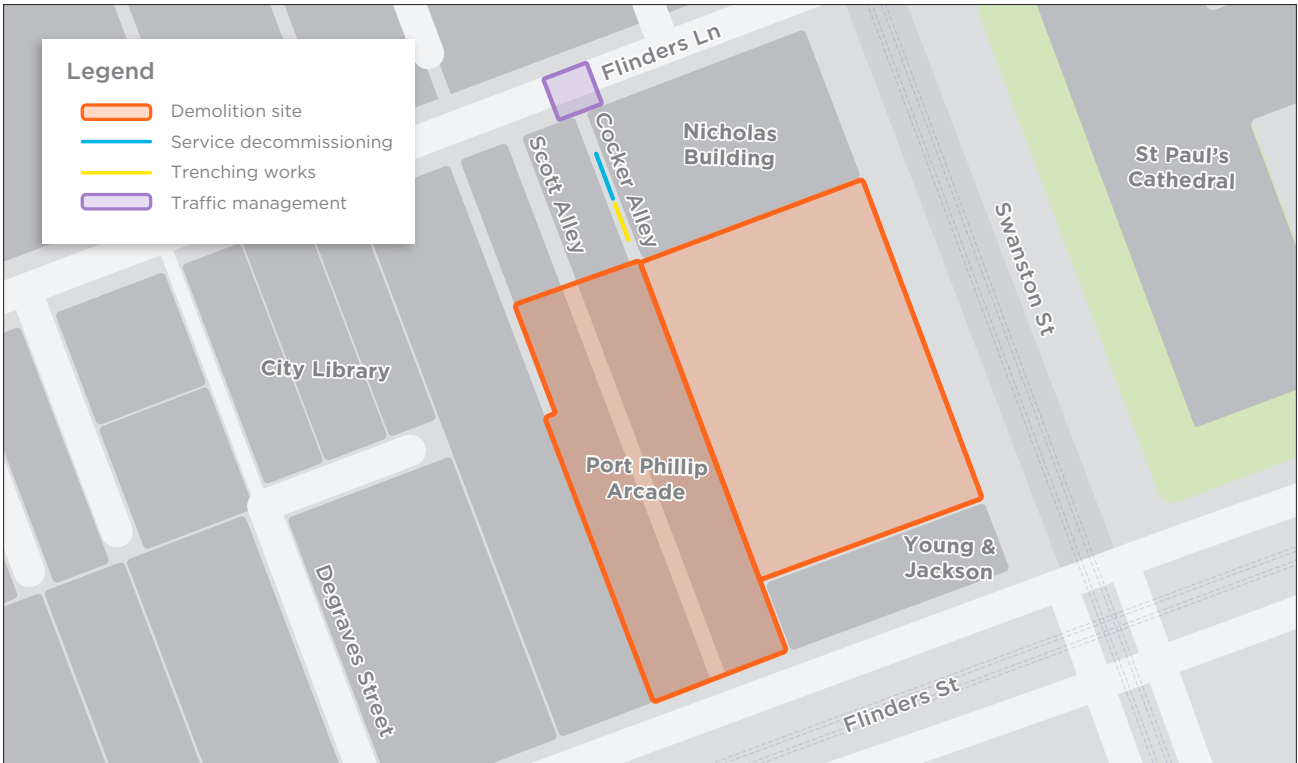

We will notify residents and businesses if there are any significant changes to the program.

Scaffolding and canopy removal works will be occurring in Cocker Alley, Royston Place, Scott Alley and Flinders Street prior to the demolition of Port Phillip Arcade in February and March. Further information, including dates, will be issued prior to the works taking place.

Construction partners:

Indicative only.
