

WORKS NOTIFICATION

SITE INVESTIGATIONS – MAIN YARRA TRAIL, MELBOURNE

26 APRIL – 28 MAY 2018

Major works on the Metro Tunnel Project are ramping up in 2018, with the Cross Yarra Partnership (CYP) selected as the contractor to build the Tunnel and Stations Package.

In preparation for these works, CYP is undertaking a range of site investigations between Kensington and South Yarra from September 2017 until May 2018.

Extensive investigations have previously been undertaken along the corridor to assess ground and environmental conditions, and these latest investigations will build on this work to finalise CYP's design and construction methodology for the twin nine kilometre tunnels and five underground stations.

What we are doing

Installing three groundwater monitoring wells along the Main Yarra Trail, opposite the boat sheds, within the investigation areas identified in the map overleaf. This involves:

- Non-destructive drilling to locate underground service
- Setting up a small fenced temporary work site
- A small crew using a drill to install the well, and backfilling the hole around it
- Reinstating the surface with a small metal capping plate that sits flush to the ground
- Returning to check the well periodically to undertake tests and collect data.

When

- **7am – 6pm, Thursday 26 April to Monday 28 May 2018**
- **7am – 1pm, Saturdays (if required).**

What to be aware of

There will be high levels of noise during ground breaking and non-destructive drilling activities

The noise generated by subsequent drilling activities will be similar to that of an idle truck engine

Access to rowing clubs will be maintained during these works

Signage and traffic controllers will be in place to safely guide cyclists and pedestrians around the work area.

Indicative only
