

WORKS NOTIFICATION

NIGHT WORKS FOR GAS SERVICE INVESTIGATIONS, DOMAIN 22 MAY 2017

Works in preparation for major construction of the Metro Tunnel are continuing in the Domain precinct with the relocation of utility services underway and service investigations continuing ahead of upcoming works.

What we are doing

On Monday 22 May additional night works will be required to conduct investigations on the existing gas service on St Kilda Road. This work is required to inform the design of the new gas service. This work will include:

- Saw-cutting small sections within the road
- Digging a narrow trench to carefully expose the gas service
- Conducting a CCTV inspection and testing
- Backfilling and reinstating the area.

What to be aware of

- There will be periods of medium to high level noise associated with saw-cutting and excavation, which will be prioritised to occur as early in the evening as possible
- Impacts from noise will be managed in accordance with the Metro Tunnel's Environmental Performance Requirements (EPRs)

- These works need to be carried out at night during off-peak traffic periods
- Work areas will be reinstated at the conclusion of works
- There is no planned disruption to essential services.

Traffic impacts

- These works will require temporary lane closures for eastbound traffic along Park Street from Wells Street to St Kilda Road
- These works will require the closure of the left turning lane on St Kilda Road into Park Street and diversion of northbound traffic to the far right lane on St Kilda Road
- Pedestrian and cyclist traffic and access will be maintained around these works
- Access to private properties and businesses will be maintained at all times
- There will be temporary lane closures and occupation of car parking spaces during works.

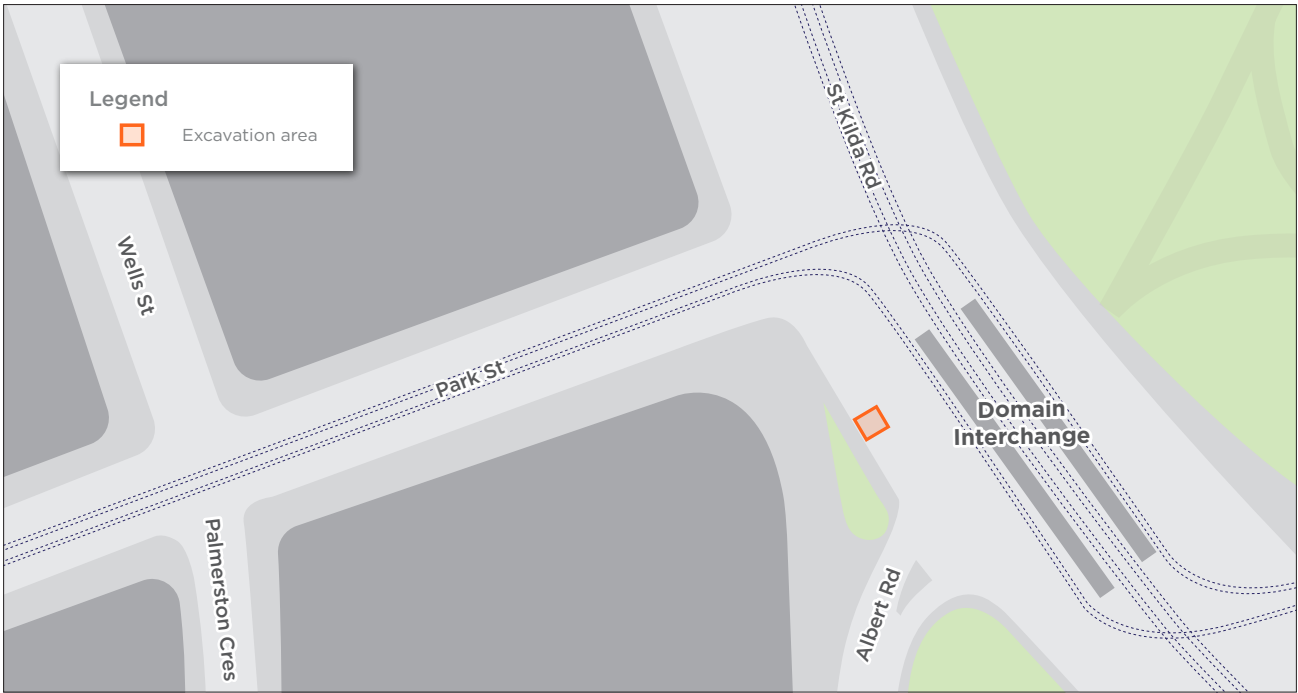

When

- 7pm-7am, Monday 22 May 2017
- We will notify residents and businesses if there are any significant changes to the program.
