

WORKS NOTIFICATION

SITE ESTABLISHMENT AND PREPARATION, CHILDERS STREET KENSINGTON FROM 21 SEPTEMBER - LATE OCTOBER 2017

Works in preparation for major construction on the Metro Tunnel Project are now underway across Melbourne. In Kensington, these works include the removal and relocation of high voltage (HV) transmission towers along Childers Street.

John Holland has been appointed as the Managing Contractor for this package of works.

What we are doing

- Establishing a work site within the parking bays along Childers Street to prepare for the installation of a temporary HV transmission tower
- This will include erecting temporary fencing, removing excess soil to level the site and constructing a hardstand (crushed rock) to support a crane
- Service relocation and protection to allow for installation of the temporary HV transmission tower.

What to be aware of

- These works will entail the removal of approximately 20 public parking spaces at the top end of Childers Street
- A section of the shared use path along Childers Street will be closed, with pedestrian and cyclist detours in place

- Temporary fencing will be installed around the work site to ensure the safety of the community and work crews
- There will be medium noise associated with this activity
- Traffic management measures will ensure the safety of work crews, cyclists and pedestrians and maintain flow of traffic
- Access to private properties and businesses will be maintained at all times
- There is no planned disruption to essential services.

When

- From 21 September to late October 2017
- 7am - 6pm, Monday to Friday
- 7am - 1pm, Saturdays

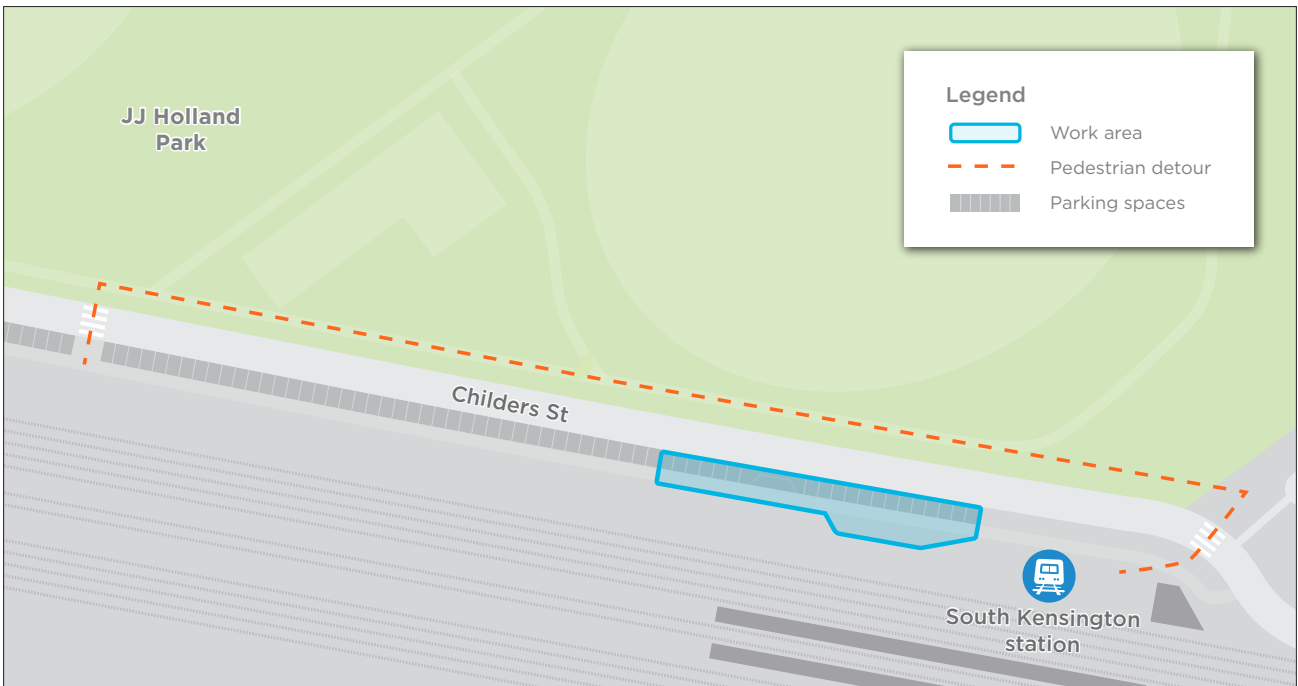

All reasonable efforts will be made to complete works ahead of schedule, subject to weather and ground conditions.

We will notify residents and businesses if there are any significant changes to the program.
