

WORKS NOTIFICATION

RELOCATION OF OVERHEAD POWER SUPPLY, ALBERT ROAD 20 & 28 APRIL 2017

Major works on the Metro Tunnel are now underway to support construction of a new underground station in Domain, and include the relocation of utility services and other activities associated with the relocation of the South Yarra Main sewer.

What we are doing

We are installing two new power poles near the Albert Road Reserve (see map) which will involve:

- Using an excavator to excavate down to the required depth to form a place for the new pole on 20 April which will be made safe
- Installing the new power poles, reinstating around the poles and running the power cables to these poles on 28 April.

What to be aware of

- Traffic management will be in place to ensure the safety of work crews, pedestrians, cyclists and maintain the flow of traffic around the work areas
- Access to private properties and businesses will be maintained at all times
- There will be no lane closures required for this work given the location of the power poles, however temporary occupation of car park spaces during works will be required adjacent to the new pole locations

- Impacts from low to medium level noise will be managed in accordance with Metro Tunnel's Environmental Performance Requirements (EPRs)
- Work areas will be reinstated at the conclusion of works.

When

- 7am – 6pm, Thursday 20 and Friday 28 April
- We will notify residents and businesses if there are any significant changes to the program.
