

## WORKS NOTIFICATION

### NIGHT WORKS FOR ST KILDA ROAD RE-SURFACING

**20 AUGUST - 25 SEPTEMBER 2017**

Major works on the Metro Tunnel Project are now underway to support construction of a new underground station in Domain.

#### What we are doing

Following on from the tram and intersection reconfiguration works that were delivered in July, Yarra Trams will install the final asphalt road surface on St Kilda Road between Bromby Street and Arthur St. This work will include:

- Profiling the road to remove the existing patched and rough surface
- Laying new asphalt on the road
- Line marking
- Installing traffic light cables

#### What to be aware of

- There will be periods of medium to high level noise associated with the road profiling and road cutting activity
- There will be periods of medium level noise associated with the asphalt activity, including some reversing beepers where necessary to maintain site safety
- Impacts from noise will be managed in accordance with the Metro Tunnel's Environmental Performance Requirements (EPRs)

- To avoid significant traffic congestion, works will be completed at night during off-peak traffic periods
- There will be no disruption to bus or tram services.

#### Traffic Impacts

- St Kilda Road will be reduced to one lane in each direction to allow these works to be undertaken.
- Works will be completed in two stages to minimise the impact to residents and traffic. Stage one will require the closure of north bound lanes and stage two will require the closure of south bound lanes. Traffic management will be in place to maintain one lane in each direction during each stage.
- Pedestrian and cyclist access will be maintained throughout these works.

#### When

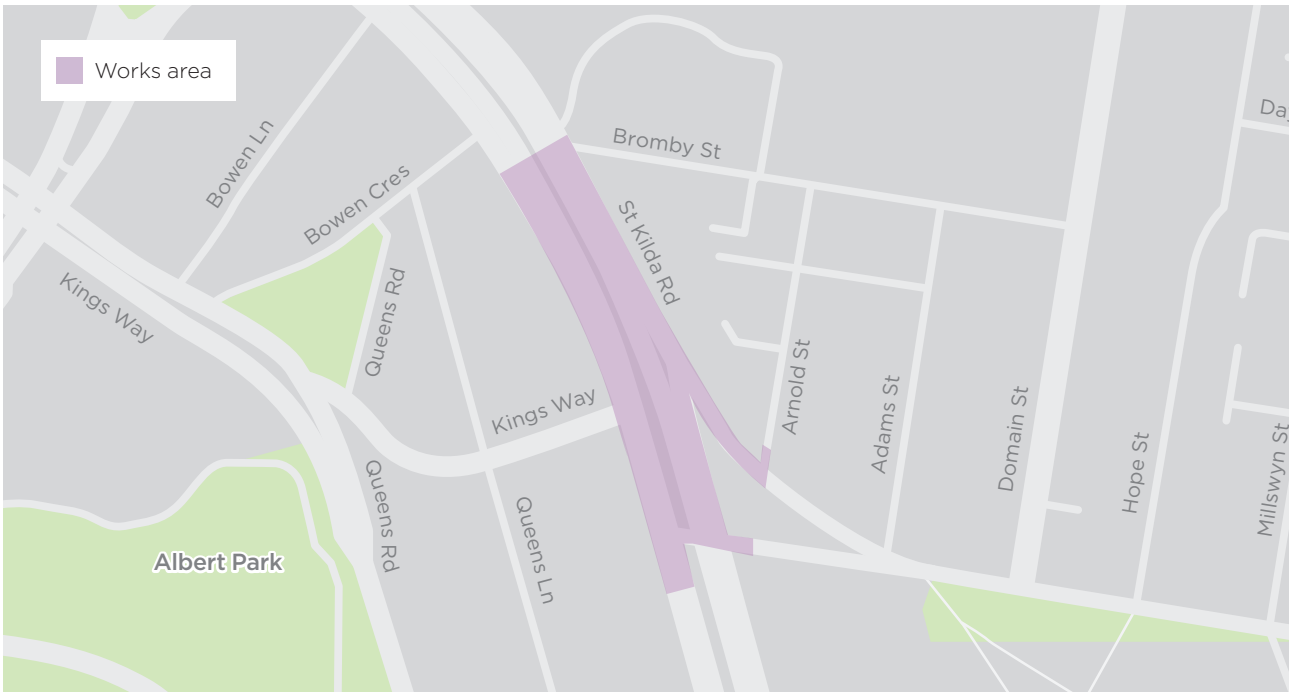

- Stage One: 9pm-6am, Sunday 20 August to Monday 4 September
- Stage Two: 9pm-6am, Sunday 10 September to Monday 25 September
- Inclement weather may alter these dates, especially for linemarking. We will notify residents and businesses if there are any changes to the program.
