

WORKS NOTIFICATION

CONNECTING THE TEMPORARY ELECTRICAL SUBSTATION TO EXISTING POWER ASSETS, NORTH MELBOURNE

8 JANUARY - 28 FEBRUARY 2018

Major works on the Metro Tunnel Project are now underway to support construction of the new North Melbourne Station (formerly Arden Station). The existing North Melbourne station will be renamed West Melbourne to more accurately reflect its location in the suburb of West Melbourne. Transport for Victoria is investigating the most efficient timing for this name change.

Work has commenced on a temporary electrical substation at the new North Melbourne Station site to provide power for the tunnel boring machines that will build the Metro Tunnel.

What we are doing

The next phase of work on the temporary electrical substation involves connecting the substation to existing power assets. This will involve trenching and cable works from Arden Street to the temporary electrical substation within the North Melbourne Station construction site.

What to be aware of

Site Mobilisation

- A site compound will be established to support delivery of the power connection
- The compound will be used as a temporary site office for staff
- Access to the site will be via Barwise Street.

Construction

- Temporary fencing will be installed around the entire work site to ensure the safety of the community

- On-site staff parking will be provided to minimise impacts on public car parking
- Traffic management measures may be required to ensure the safety of work crews and pedestrians and maintain flow of traffic
- Access to private properties and businesses will be maintained at all times
- There may be some temporary pedestrian diversions required
- An overhead line will be installed across Arden Street with minimal impact to traffic flow
- These works are expected to generate medium to high levels of noise, particularly during trenching and excavation works.

When

Site mobilisation and construction works will occur concurrently and will take place during normal working hours:

- Monday 8 January to Wednesday 28 February 2018
- 7am - 6pm, Monday to Friday
- 7am - 1pm, Saturdays

Should works outside of these hours be required, we will notify you in advance.

We will notify residents and businesses if there are any significant changes to the program.
