

WORKS NOTIFICATION

NIGHT WORKS - TUNNEL ENTRANCE, SERVICE INVESTIGATIONS OSBORNE STREET, SOUTH YARRA **25 FEBRUARY - 27 FEBRUARY 2018**

Works in preparation for major construction of the Metro Tunnel eastern entrance are continuing in South Yarra with service investigations commencing in late February.

What we are doing

To further inform the design and construction methodology for the eastern tunnel entrance service investigations will be taking place within the rail corridor off Osborne Street, South Yarra. Service investigations will take place at night within the highlighted area on the map below, to confirm the location of existing drainage, communication and electrical utilities.

Service Investigations work will include:

- Non-destructive digging (NDD) within the eastern side rail embankment
- Use of an elevated work platform, NDD truck, temporary lighting and some hand tools.

What to be aware of

- Work crews will access the site from Osborne Street and South Yarra Siding Reserve, however a temporary site will only be set up on the Osborne Street side. Temporary site setup will occur during the day and includes installation of temporary fencing.

- There will be medium levels of noise during these works. Noise blankets will be used on fencing to minimise disturbance and the noisiest works will take place intermittently for up to 3 hours during the night
- There will be some traffic management in place on Osborne Street
- As these works are within the rail corridor they need to take place at night so as not to interrupt train services.

When

- **9pm - 7am - Sunday 25 February and Monday 26 February 2018**

We will notify residents if there are any significant changes to the program.
