

Important information

Building delivery

Malvern station, Malvern

Tuesday 13 and Wednesday 14 July 2021

Works to deliver and install the relocatable equipment building (REB) at Malvern station will now take place during the day.

Further to the works notification in June, works to deliver and install the REB at Malvern station have been rescheduled to commence during the day, and will no longer impact traffic on the southbound lanes of Dandenong Road.

The building installation will involve a crane to lift the REB into place and crews with hand tools.

Traffic management will be in place near the Malvern station car park to safely facilitate vehicle movement during this time.

Works to deliver and install the REB are expected to generate low levels of noise with some medium-level peaks when the crane is in use.

Once the building is installed, the building internal fit-out works will continue until late-2021. Internal fit-out works will involve crews with hand tools and expected to generate low levels of noise.

When:

Tuesday 13 and Wednesday 14 July
7am – 6pm

Where:

Malvern station, Malvern
