

WORKS NOTIFICATION

SERVICE INVESTIGATIONS – WINDSOR STATION

TUESDAY 21 MAY TO SUNDAY 9 JUNE 2019

As part of the Metro Tunnel project, major works will be carried out on the Sandringham line throughout May and June. During this time, the project will need to complete service investigation works at Windsor Station to help inform future design. While we complete these works, some parking will temporarily be removed, and pedestrian detours will be in place.

What we are doing

Service investigation works

- Non- destructive digging (NDD) to locate the gas, water, electricity and communications services that run along the rail line
- These works will involve the use of
- NDD and an excavator
- NDD uses pressurised water to break up soil and vacuums the soil to expose services located underground without damaging them.

Parking removal

- To allow room for the NDD truck and other necessary equipment, approximately six parking spaces will need to be removed at Windsor Station for the duration of these works. A map overleaf shows the location.

Footpath closure

- While we complete service investigation works, the footpath that connects Windsor Station to the Windsor Reserve will be closed
- The footpath from Peel Street to the Windsor Siding Reserve will be closed, please use Union Street or Alpha Place to access the reserve during this time.

When

- Monday, 20 May to Monday, 10 June
- 7am to 7pm
- Works will be completed Monday to Sunday during this time.

What to be aware of

Noise

- NDD works will generate medium levels of noise.

Footpath closure

- Alternative access to the Windsor Reserve is available to residents while we complete these works.
