

## CONSTRUCTION UPDATE

### PARKVILLE PRECINCT OCTOBER - NOVEMBER 2019

Major works on the Metro Tunnel are underway in Parkville to build the new underground station. This update provides an outline of current and upcoming works in your area throughout October and November 2019.

#### Construction snapshot

Construction works are continuing within the Parkville precinct during October and November and will include:

- Excavation and support activities will continue in the Grattan Street east station box with the current excavation at a depth of approximately 23 metres
- Service relocations on Grattan Street between Royal Parade and Flemington Road and in the northbound service lane on Elizabeth Street/ Royal Parade from Haymarket Roundabout to just north of The Royal Melbourne Hospital.

Some works outlined in this notification extend beyond November to provide a longer term lookahead.

Further information on these works can be found overleaf or at [metrotunnel.vic.gov.au](http://metrotunnel.vic.gov.au).

#### When are we working?

##### Normal construction hours

7am to 6pm, Monday to Friday  
7am to 1pm, Saturdays

Some activities may be required to continue slightly past these hours. All efforts will be made to complete activities as scheduled.

##### Out of hours

Some works are required to take place out of normal construction hours. The timing of these works are outlined in the construction information overleaf.

##### 24 hours

24 hour works are sometimes required during peak construction activities. The timing of these works are outlined in the construction information overleaf.

# WORKS IN YOUR AREA

## Station box excavation and associated works

Grattan Street east  
Ongoing

- Excavation and associated activities are ongoing underneath the temporary deck between Royal Parade and Leicester Street
- Excavation, strut installation and associated works in the north and west section of the Grattan Street east site. Some out of hours works will be required
- These works involve non-destructive digging (NDD), saw-cutting and jackhammering and are expected to generate intermittent periods of medium to high level noise depending on the activity
- Bulk excavation will continue until late 2019. Some excavation activities will continue in 2020
- Base slab construction is expected to commence at the eastern end of the site from late November 2019 and continue until mid-2020. This involves concrete pours, and daily deliveries of steel reinforcement, concrete, and formwork
- Out of hours concrete pours may be required above the deck
- During operation, the gantry cranes will move along the site on rails at a speed of around 1.8 km/h and make a noise similar to the reversing squawkers on trucks for safety reasons
- During excavation, trucks will wait at the City Ford site and enter via Berkeley Street and exit via Barry Street. Trucks will also be used to transport equipment between the City Ford and Grattan Street sites, Royal Parade, Barry and Berkeley streets, or the eastern end of the site
- At times, trucks will need to reverse into the site. All trucks will be fitted with broadband reversing squawkers
- Some equipment will be delivered out of hours to comply with VicRoads requirements for oversized deliveries
- These works are expected to generate low to high levels of noise, depending on the activity.

## Site establishment

Barry Street  
Ongoing

- Ongoing maintenance works within the Barry Street site
- These works involve saw-cutting, jackhammering, NDD and concrete pours
- Traffic management will be in place to safely guide pedestrians around the work area if required.

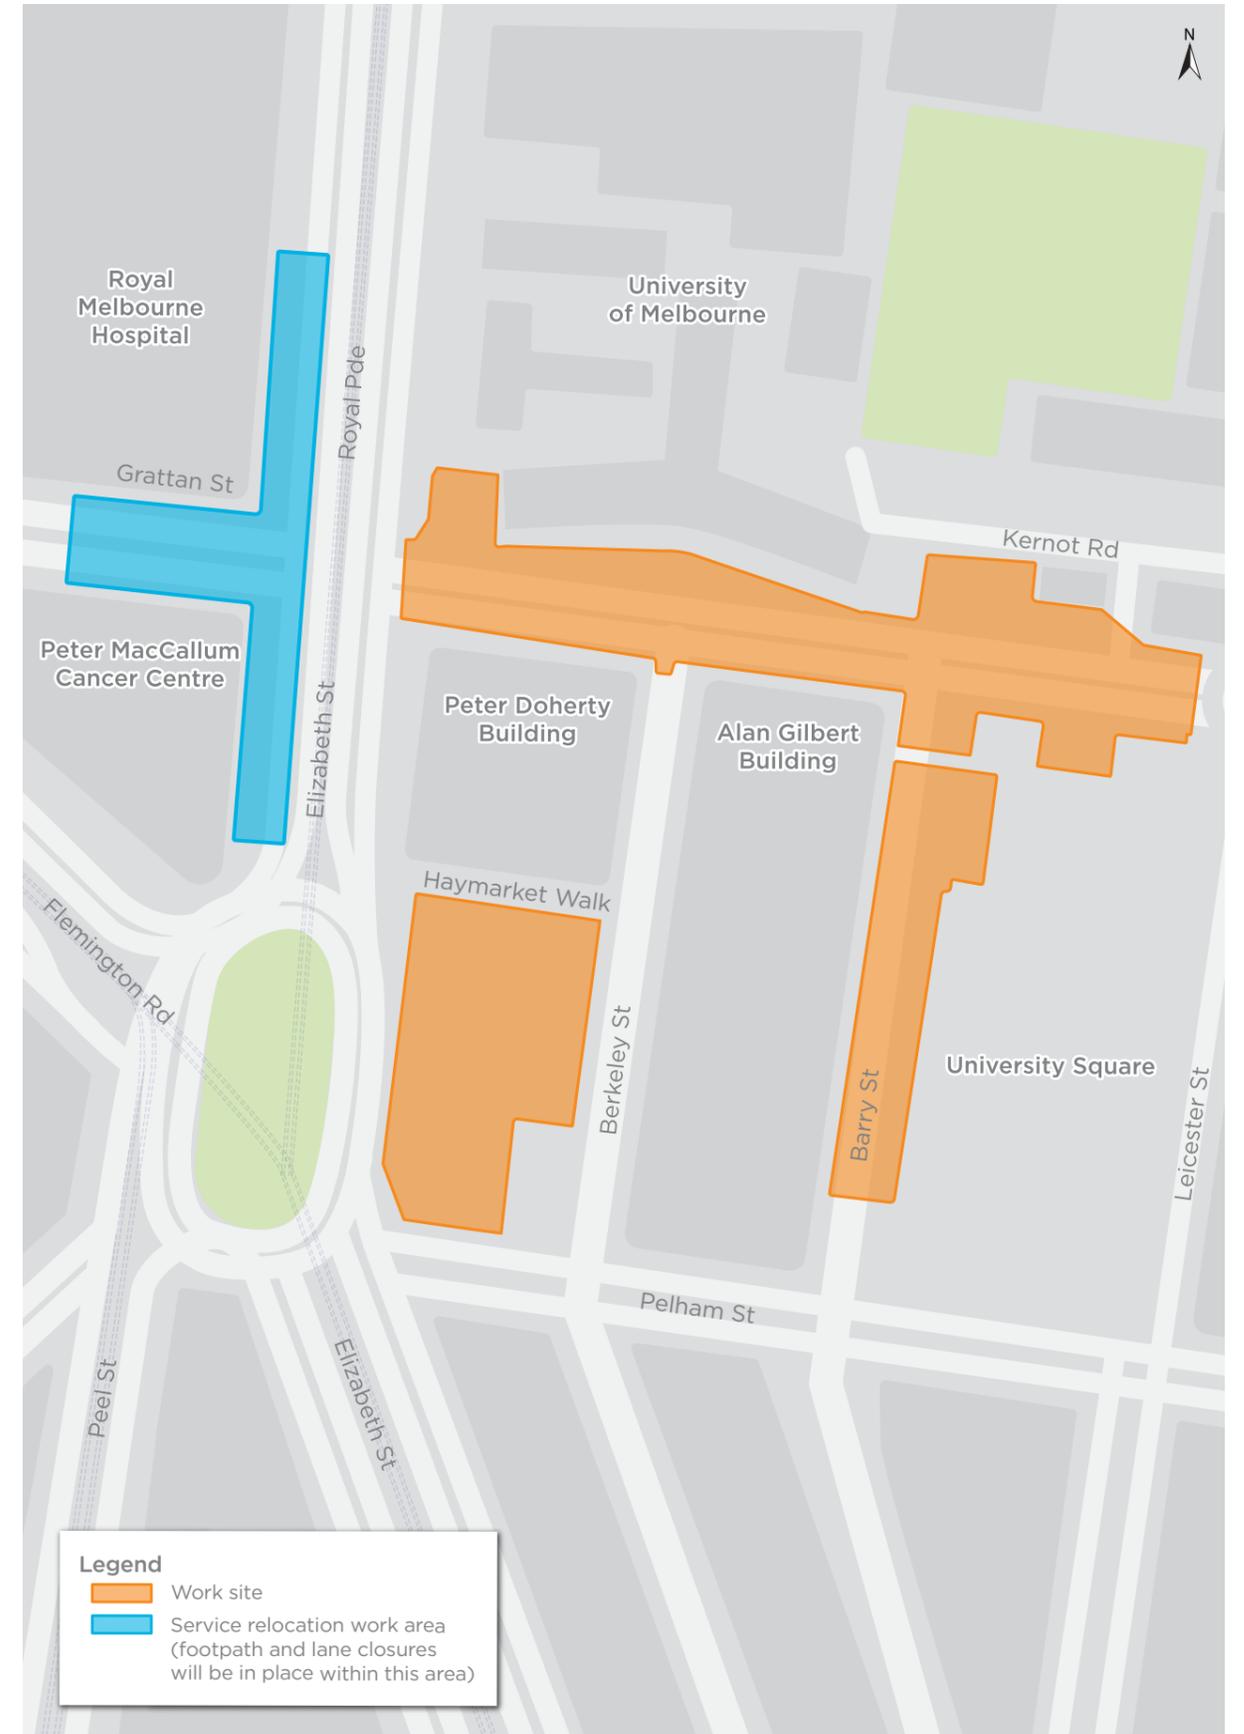

## Service relocations

Grattan Street (between Royal Parade and Flemington Road) and on Elizabeth Street/Royal Parade

From October 2019 to early 2020

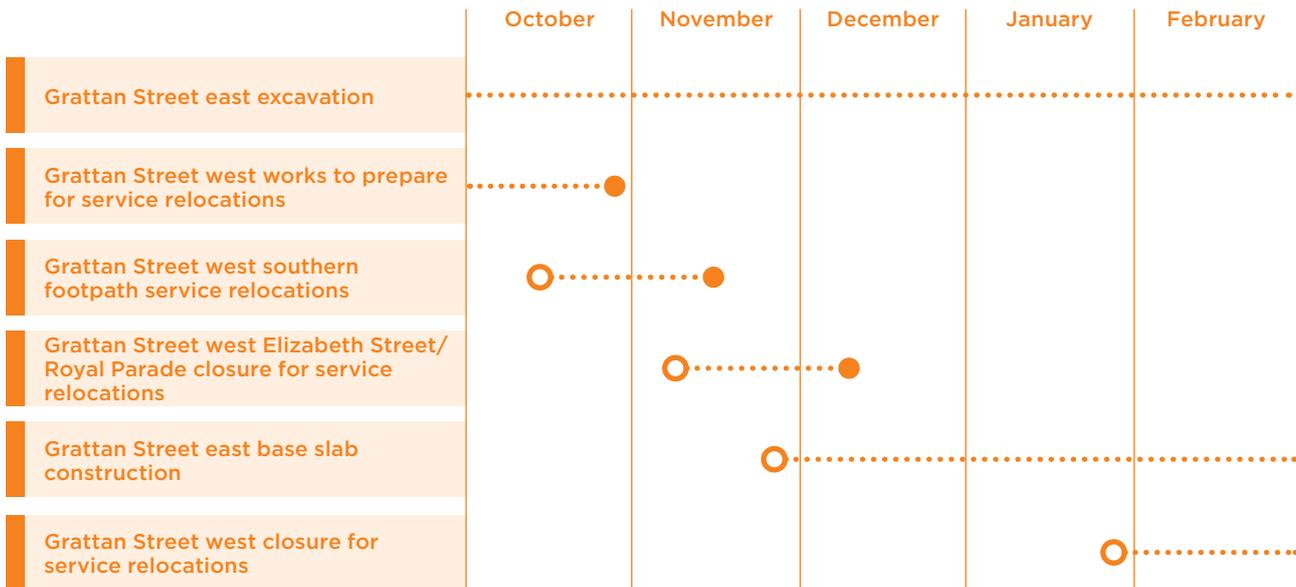

- Service relocations are required to prepare the construction of the two new station entrances outside the Peter MacCallum Cancer Centre and The Royal Melbourne Hospital. Station entrance construction is expected to commence early 2020
- Works to prepare for service relocations include service decommissioning, tree removals, and changes to the median strip on Elizabeth Street/Royal Parade to improve traffic flow during the works
- Every effort has been made to minimise tree removal with only trees affected by current works to be removed
- All relevant planning permits and approvals will be granted prior to any works including tree removals, taking place
- Service relocations will involve excavating trenches, installing and connecting services, backfilling and reinstating the road, footpath or kerb
- These works are expected to generate medium to high levels of noise
- There will be traffic, cyclist and pedestrian changes, including road and footpath closures, on Grattan Street, between Royal Parade and Flemington Road, and on Elizabeth Street/Royal Parade from Haymarket Roundabout to just north of The Royal Melbourne Hospital during these works
- Vehicle, cyclist and pedestrian access will be maintained at all times with diversions in place
- Access to hospitals, including for emergency services and to businesses, will be maintained at all times
- There will be no changes to public transport services during these works
- Traffic management will be in place to safely guide vehicles, cyclists and pedestrians around the work area
- Motorists are advised to plan ahead and allow extra time
- All works are subject to change
- Further information about these works will be found at [metrotunnel.vic.gov.au](http://metrotunnel.vic.gov.au) as it becomes available.

Indicative only

# LOOK AHEAD FOR 2019-2020

## Business support

While the Metro Tunnel Project will be a significant boost for Melbourne, construction activities in a busy environment can be challenging for local businesses.

In response to this, our Business Support team assists businesses through the disruption and any permanent changes that take place.

We hope you will join us in supporting the **Healthsmart Pharmacy, 311 Grattan Street**. Please see the insert within this notification for more information.

We look forward to promoting more businesses in the coming months.

## We are taking a break

Please be advised that the Metro Tunnel Project will take a break from construction from Saturday 2 November. Works will recommence on Thursday 7 November 2019. During the closure period, the site will be secured with regular security patrols. The project team will be on call during this time to directly respond to any issues that arise.

There may be minor works taking place during this time. Further information will be provided if works are to occur.
