

MELBOURNE METRO RAIL PROJECT ENVIRONMENT EFFECTS STATEMENT
INQUIRY AND ADVISORY COMMITTEE

MMRA TECHNICAL NOTE

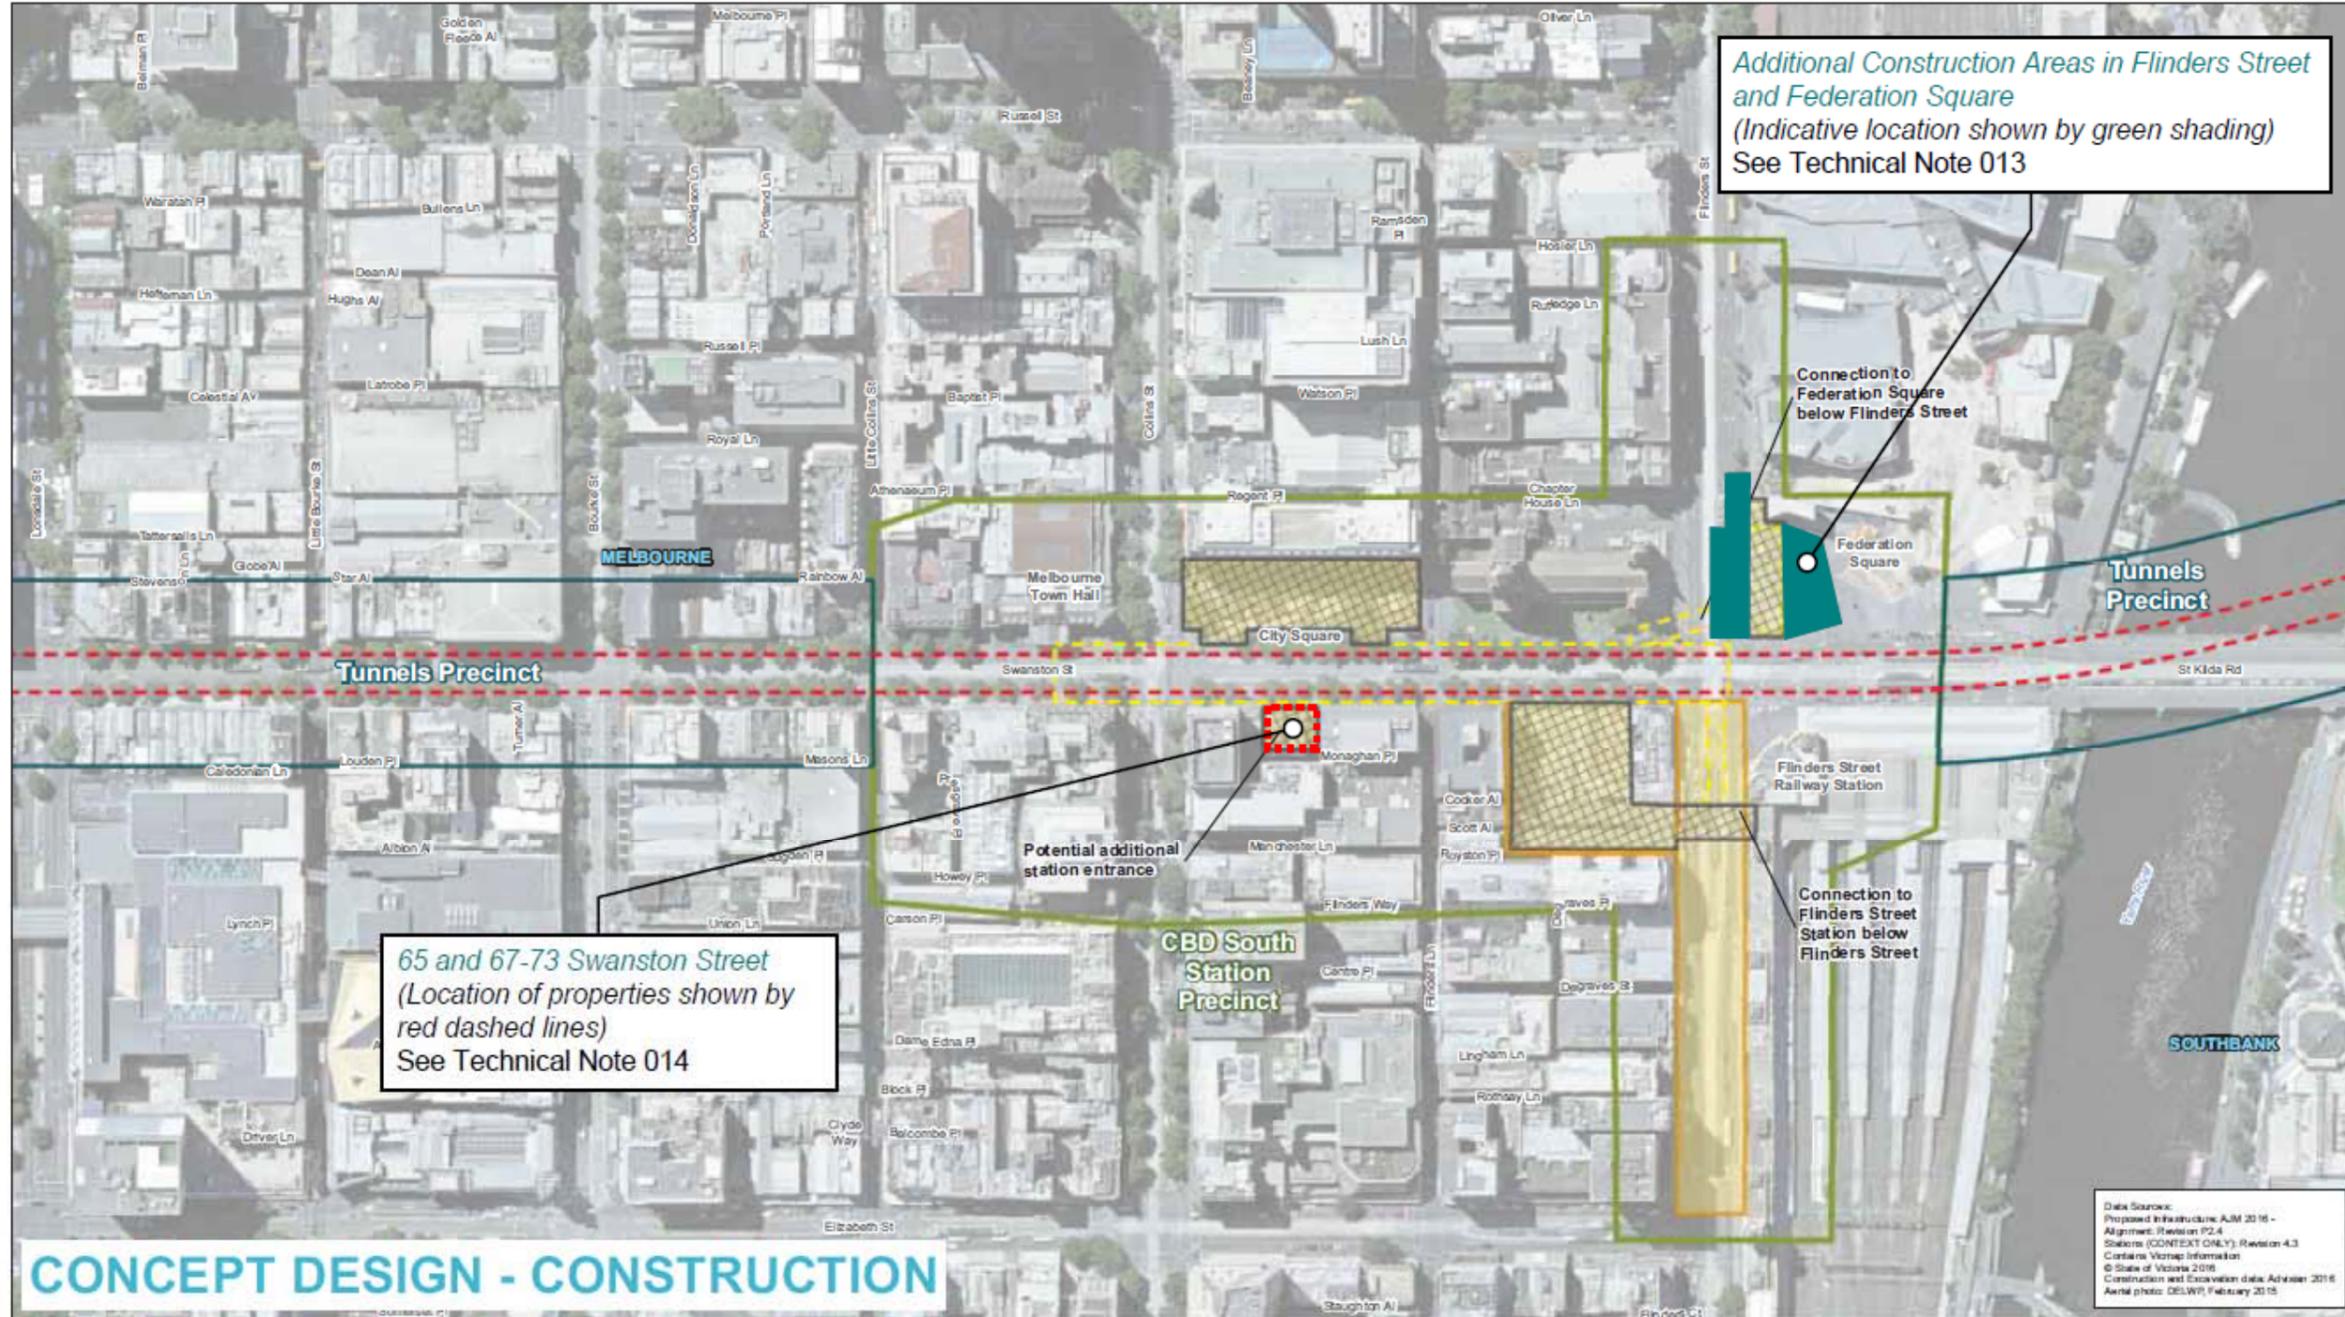

TECHNICAL NOTE NUMBER: 013
DATE: 26/7/2016
PRECINCT: CBD South
MAP BOOK REFERENCE: Map 8 (Horizontal Alignment Plans – Construction Phase)
SUBJECT: Additional Construction Areas in Flinders Street and Federation Square

NOTE:

1. Map 8 in the EES Map Book includes a proposed temporary construction work site on Flinders Street on the west side of Swanston Street and an excavation area within Federation Square.
2. This modification shows:
 - an additional temporary construction work site on Flinders Street on the east side of Swanston Street; and
 - a larger construction and laydown area within Federation Square including the site of the western shard, which is proposed to be demolished and reinstated.
3. This modification recognises that there are substantial construction works associated with this station entrance.
4. There is the potential for this modification to result in a four to five month closure of westbound traffic lanes on Flinders Street between Russell Street and Swanston Street as a consequence of these works.

ATTACHMENTS:

A: EES Map 8 (construction phase) annotated to show the expanded “proposed temporary construction work sites” on and around Federation Square.

Legend

Proposed Concept Design	Precinct Boundaries	Proposed temporary construction work site
Proposed rail alignment	Tunnels Precinct	Proposed excavation areas - from surface
	Station Precinct	Proposed sub-surface excavation

Note: Proposed footprint of construction areas is indicative only and may be subject to change
