WORKS NOTIFICATION

OUT OF HOURS WORKS
KENSINGTON
FEBRUARY - MARCH 2019

This notification provides information about upcoming out of hours works in Kensington within the rail corridor.

What we are doing

Piling rig delivery
• Delivering a piling rig to the Childers Street worksite ahead of the start of rail embankment retaining wall works.

Site preparation and service investigations
• Installation of a delineation fence along the rail embankment
• Non-destructive digging (NDD) to investigate ground conditions and to confirm the area is free of underground services.

Rail embankment retaining wall piling (sheet piling)
• Using a piling rig to drive steel sheets into the ground to construct a section of the retaining wall in close proximity to the rail corridor.

Overhead wiring, structure relocation and signalling works
• Installing repositioned overhead structures within the rail corridor
• Transferring overhead cables onto repositioned overhead structures
• Removing old overhead structures
• Installing signalling cables and casing.

Signalling installation and commissioning
• Installing, testing and commissioning new signalling equipment using a small digger
• Removing an old signal structure.

When
• 3am-7am, Monday 18 February (piling rig delivery). Note this is a rescheduled delivery
• 9pm Saturday 23 to 4am Monday 25 February
• 7pm Friday 1 to 4am Monday 4 March
• 7pm Friday 15 to 4am Monday 18 March (signalling works).

What to be aware of
• To ensure the safety of passengers and our workers, these activities can only be performed safely when trains are not operating
• The works are expected to generate periods of medium to high level noise during retaining wall piling and NDD activities. All other activities are expected to generate low to medium levels of noise
• The works are expected to generate low to medium levels of vibration during retaining wall piling works
• Use of temporary light towers powered by generators will be required. We will position lights so they face away from residential properties, where possible.

• To minimise disruption to the local community and rail users, important Metro Trains Melbourne maintenance works will also be carried out at this time. For more information on these works visit: metrotrains.com.au.

Travel changes
So the 24 hour works can take place safely, buses will replace trains at various times in February and March. These disruptions will take place outside of peak times.
