

RAIL INFRASTRUCTURE ALLIANCE

WORKS NOTIFICATION

OVERNIGHT DELIVERIES - CHAMBERS, WILLIAM AND ARTHUR STREETS, SOUTH YARRA

THURSDAY 4 APRIL 2019

A piling rig will be relocated from Chambers Street to William Street overnight, to help complete piling works taking place within the rail corridor during upcoming major construction activities in April. The rig will then be demobilised and collected from site in late April.

What we are doing

- The piling rig currently located at Chambers Street will be loaded onto a truck and transported to the South Yarra Siding Reserve
- To load the rig, the truck will reverse down Chambers into the worksite on the northern side of the rail corridor
- Once loaded, the truck will travel from Chambers Street, along Toorak Road, into Chapel Street and along Arthur Street before reversing down William Street into the South Yarra Siding Reserve
- The truck will park inside the site on William Street and the piling rig will be unloaded
- Once unloaded, the truck will exit Arthur Street onto Chapel Street.

When

- Thursday, 4 April
- Between 1am to 6am.

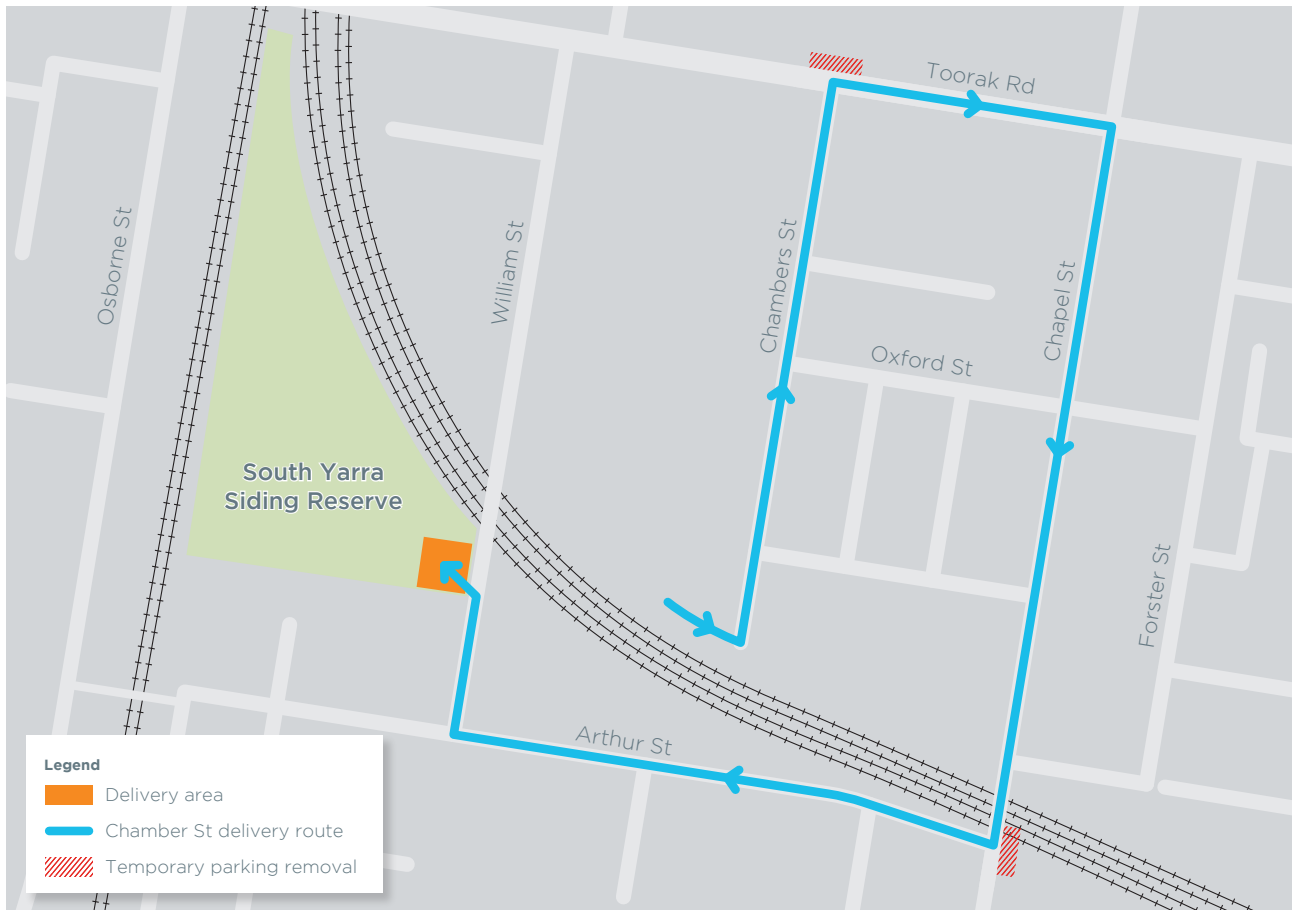

Oversized deliveries are required to be transported along major arterial roads at night under VicRoads escort, to minimise traffic, tram and bus disruptions.

Residents will be notified prior to the rig being removed from site in late April 2019.

What to be aware of

- There will be medium levels of noise as the piling rig is unloaded and driven into site
- There will be periods of high noise levels as the truck reverses down Chambers and William streets
- For the safety of workers, there will be some directional lighting during this time. Directional lighting will be positioned away from residences where possible
- To allow trucks to manouvre safely, some parking will temporarily be removed on Toorak Road and Chapel Street.

Overnight delivery route
