WORKS NOTIFICATION

24/7 CONSTRUCTION HOURS SOUTH YARRA SIDING RESERVE **FRIDAY 13 TO FRIDAY 20 SEPTEMBER 2019**

Works to build the tunnel entrance in South Yarra are progressing, with construction of the tunnel roof slab continuing throughout September. To ensure the roof slab is secure and ready for the excavation of the tunnel, 24/7 work hours are required for steel fixing and tying works within the South Yarra Siding Reserve.

What we are doing

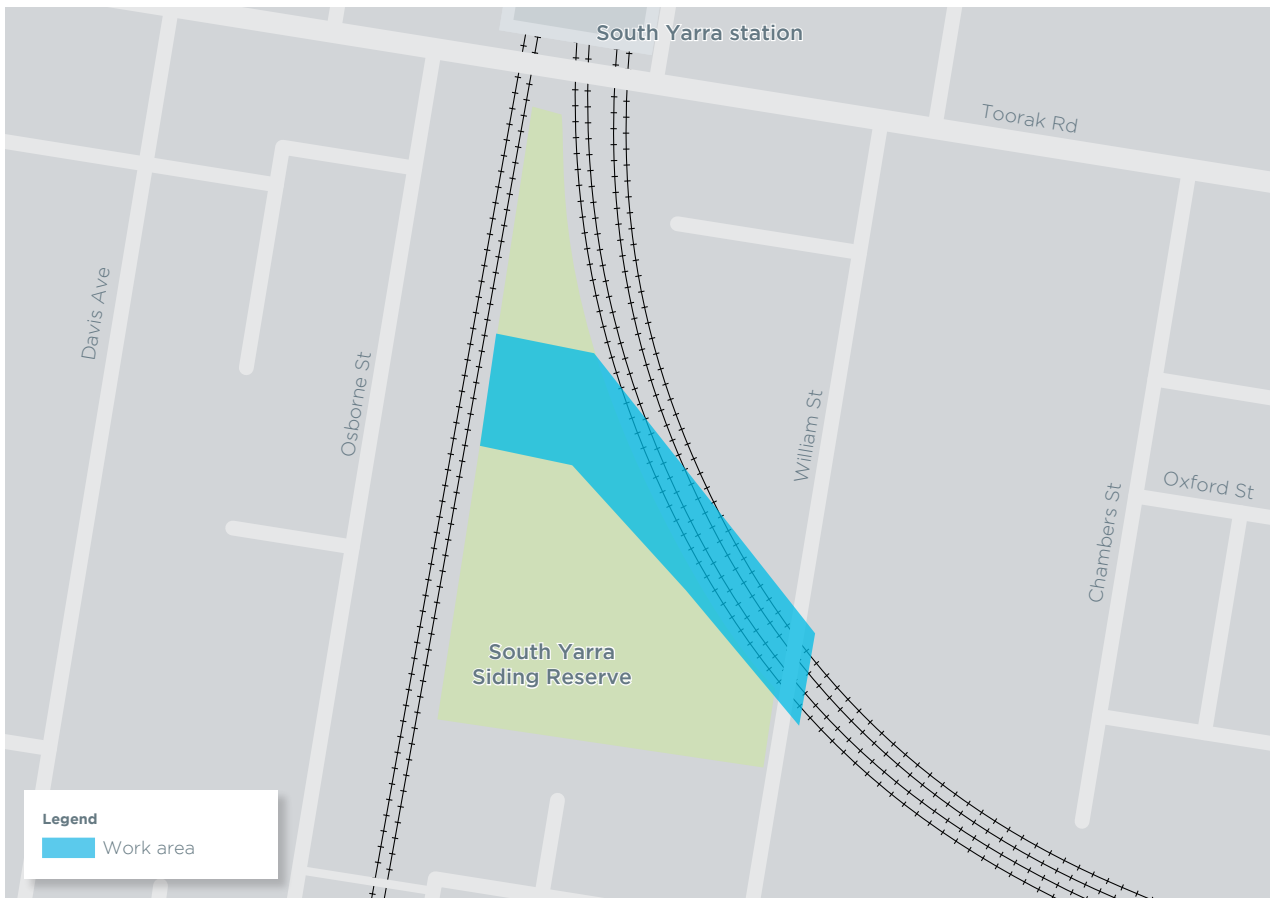

- Installing and fixing steel that will form the new tunnel roof
- There will be some welding as well as the lifting of steel and steel deliveries to site
- The works will be contained to a small section of the South Yarra Siding Reserve and will require the use of hand tools, and a small crane.

When

- 24/7, Friday 13 to Friday 20 September.

What to be aware of

- The works are expected to generate low levels of noise with some medium level noise when the crane is in operation
- Directional lighting will also be in place. We will ensure this is pointed away from residential properties where possible
- Additional truck movements as the steel is delivered to site
- Following these works there will be an overnight concrete pour for the roof slab. Residents will be notified of these works closer to the date.
