

Works Notification

State Library Station

January 2021

Major construction is continuing in the State Library Station Precinct. This update provides an outline of current and upcoming works in your area.

Tunnel Boring Machine (TBM) Joan has arrived at the State Library Station Precinct from Parkville. Joan will be relaunched in the coming weeks and will make the journey south underneath Swanston Street. TBM Meg is expected to arrive at the State Library Station Precinct from Parkville at the end of January 2021. The tunnelling team has recommenced excavation, permanent lining, and structure works.

Meanwhile, shaft construction works continue at the La Trobe and Little La Trobe Street sites.

What we are doing

- Removing excavated material from the A'Beckett Street shaft using trucks with trailers
- Shaft construction at La Trobe and Little La Trobe Street sites involving the use of excavators, a tower crane, and trucks to remove excavated material from the sites and deliver construction materials
- Steel fixing, formwork installation and excavation works will continue until 10pm on weeknights and 6pm on Saturdays at the La Trobe and Little La Trobe Street sites
- Hammering activities underneath the ground floor slab at the La Trobe and Little La Trobe Street sites will conclude before 8pm
- Use of the tower crane at the Little La Trobe Street site for lifting activities will conclude before 8pm
- Due to current access arrangements at the Little La Trobe Street site, the tower crane will remain switched 'on' between 8pm and 10pm but will not be in use unless there is an emergency

- Truck movements to remove excavated material from shaft construction works at the La Trobe Street site will conclude before 10pm
- Truck movements to remove excavated material from shaft construction works at the Little La Trobe Street site will conclude before 9pm
- Intermittent overnight concrete finishing works at the La Trobe Street site using light towers and concrete finishing equipment
- Delivering a scrubber (ventilation system) to the La Trobe Street site using an oversized truck
- Decommissioning groundwater wells located within the Swanston Street footpath and bicycle lanes between La Trobe and Collins streets involving grout filling
- Decommissioning groundwater wells located on Little La Trobe Street involving a partial road closure for grout filling (refer to map).

What you should be aware of

- Oversized deliveries and groundwater well decommissioning works on Swanston Street are required to take place when trams are not running
- Groundwater well decommissioning works on Little La Trobe Street will require a partial road closure. (refer to map)
- Overnight concrete finishing works and groundwater well decommissioning works will generate low levels of noise
- Intermittent overnight use of the Swanston

Street concrete pump is required to support tunnelling works

- Traffic management will be in place to safely guide pedestrians, cyclists, and motorists around the work areas
- Please allow extra travel time during groundwater well decommissioning works
- Local access for residents and businesses will be maintained at all times.

When

Swanston Street

Groundwater well decommissioning

- 10pm to 5am, two nights between Tuesday 9 and Thursday 11 February 2021

Little La Trobe Street

Groundwater well decommissioning

- 7am to 6pm, Monday 8 February 2021

Little La Trobe Street site

Shaft construction

- 7am to 10pm, Monday to Fridays, ongoing
- 7am to 6pm, Saturdays, ongoing

La Trobe Street site

Shaft construction

- 7am to 10pm, Monday to Fridays, ongoing
- 7am to 6pm, Saturdays, ongoing

Concrete pours

- 7am to 10pm, intermittently

Concrete finishing works

- 10pm to 5am, intermittently

Scrubber delivery

- 1am to 5am, Friday 29 January 2021

A'Beckett Street site

Excavation within the acoustic shed

- 24 hours, Monday to Sundays, ongoing

Excavated material removal

- 24 hours, Wednesday 27 and Thursday 28 January 2021 (if required)
- 7am to 10pm, Mondays to Sundays until early-February 2021

Franklin Street sites

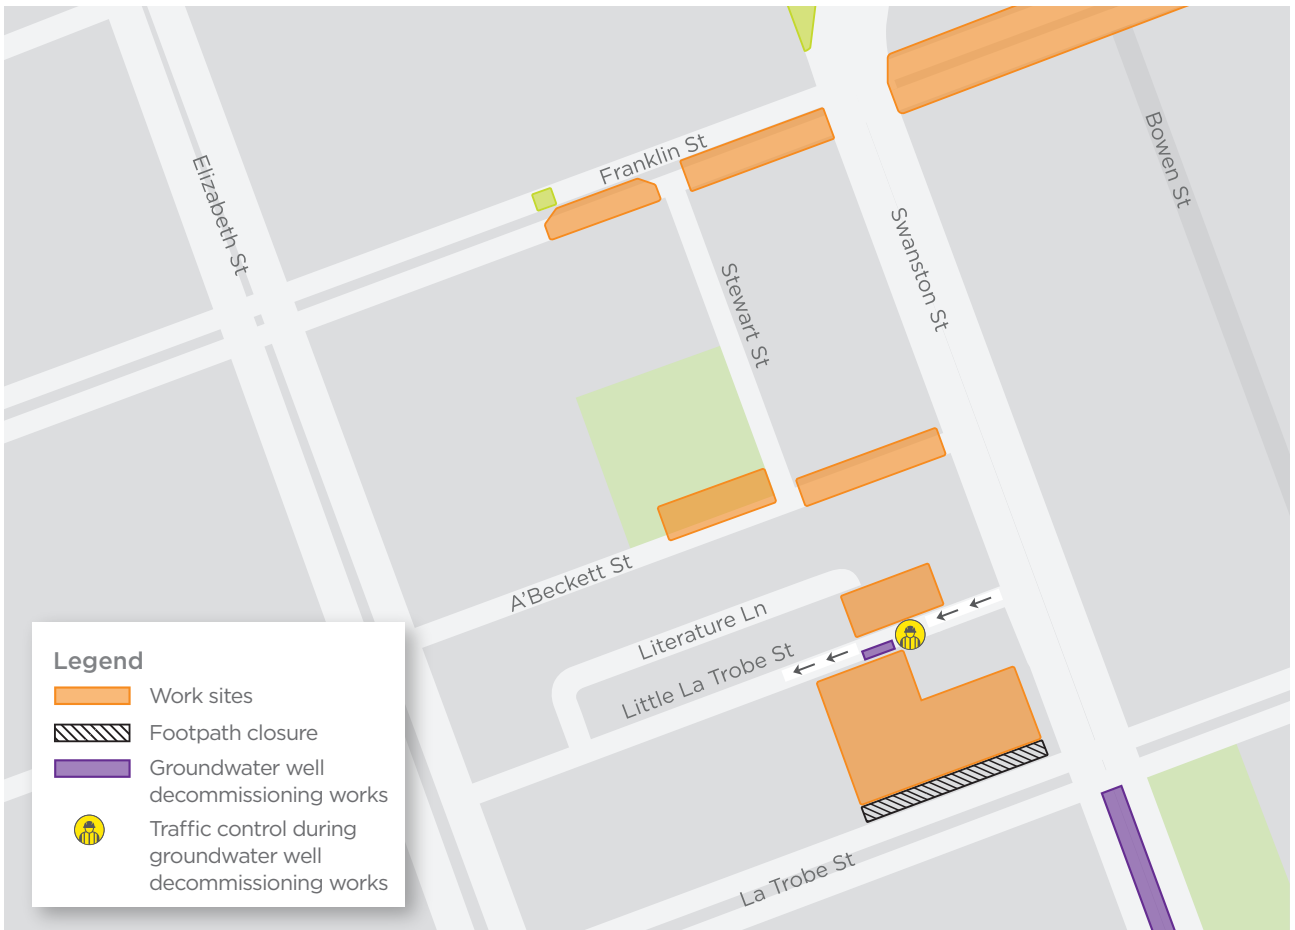

Structures and lining works within the acoustic sheds

- 24 hours, Monday to Sundays, ongoing

All sites

Oversized deliveries

- 10pm to 7am, ongoing.

Indicative only

TBM Joan breakthrough to State Library Station - December 2020

Health and safety

Works on the Metro Tunnel Project are progressing with strict COVIDsafe Plans in place.

The health and safety of our workforce and community remains our top priority.
