

RAIL INFRASTRUCTURE ALLIANCE

WORKS NOTIFICATION

SERVICE INVESTIGATION – NIGHT WORKS AND ROAD CLOSURE TUESDAY 12 TO FRIDAY 15 MARCH

As part of the Metro Tunnel works to construct the tunnel entrance in South Yarra and upgrade signals for the two new rail tracks, we will be carrying out service investigations on Greville Street, South Yarra in March.

What we are doing

Service investigation works will be undertaken at night and will include;

- Non destructive digging (NDD) to locate the gas, water, electricity and communications services that run along the level crossing on Greville Street
- Saw cutting the road surface of Greville Street to expose underground services.
- Re-asphalting the road surface of Greville Street once all service investigations are complete
- These works will involve the use of non-destructive digging (NDD), a saw cutter and excavator
- NDD uses pressurised water to break up soil and vacuums the soil to expose services located underground without damaging them.

When

- Tuesday, 12 to Friday 15, March
- 8pm to 5am.

Service investigation works are required to be carried out at night, to ensure the safety of our workers and the community, and to minimise impacts to road traffic.

What to be aware of

Noise

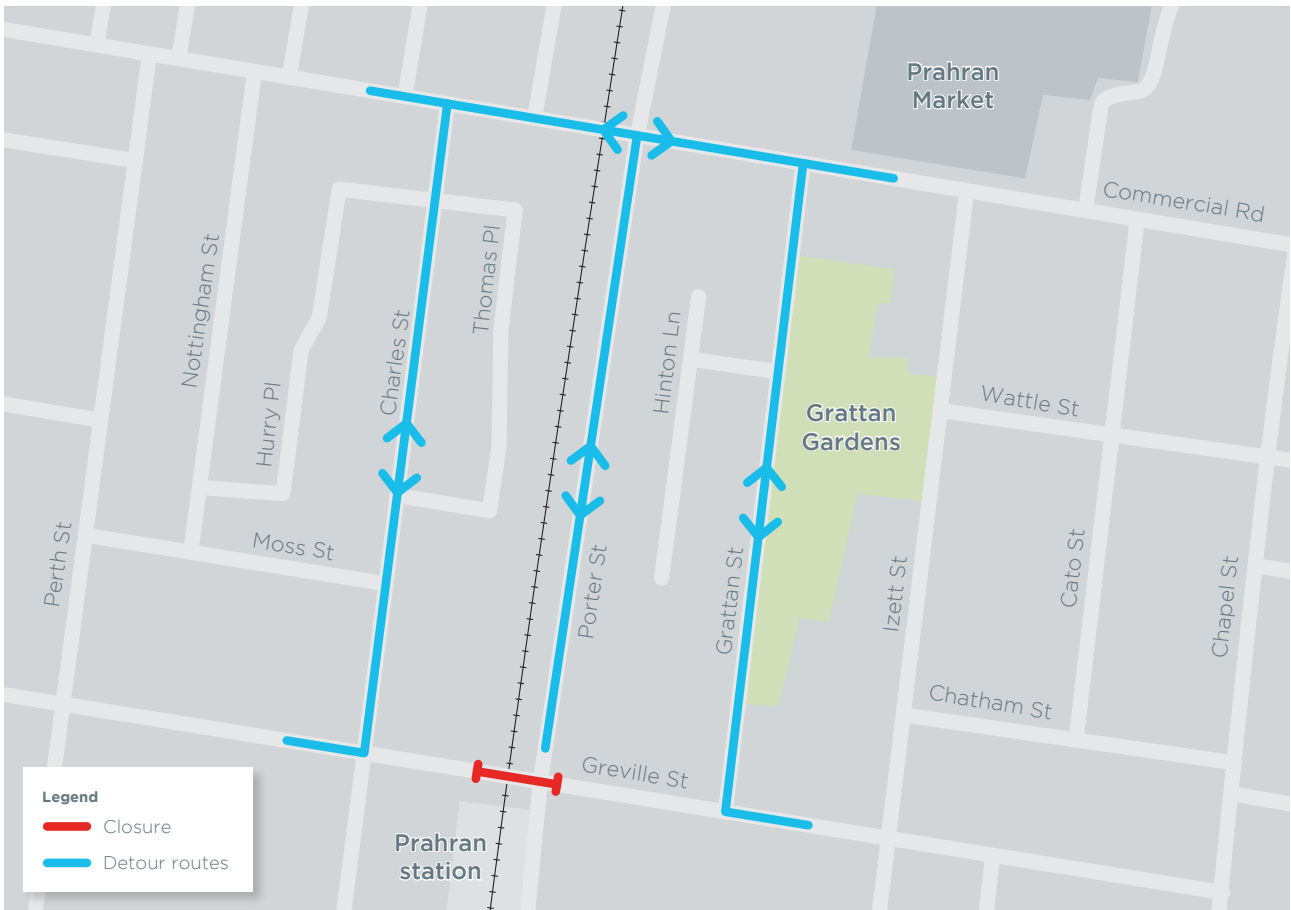

- Cutting the road surface will generate high levels of noise. This work is expected to be completed quickly on the first night of works
- All other works are expected to generate low to medium levels of noise.

Road closure

- Greville Street will be closed to traffic between 8pm and 5am. Detours will be in place during this time (see map overleaf).

Light

- These works will be completed under directional lighting for worker safety. Every effort will be made to direct all lighting away from homes.

Legend

- Closure
- Detour routes
