

WORKS NOTIFICATION

UPCOMING WORKS KENSINGTON MAY 2019

Further to the Kensington May Monthly Construction Update this notification provides additional information about upcoming works in Kensington.

What we are doing

Guide wall and embankment widening works

- Excavating two trenches along the rail corridor
- Pouring a concrete base along the bottom of each trench
- Installing reinforcement steel and temporary timber moulds to assist with pouring concrete
- Pouring sections of concrete
- Reinstating crushed rock and soil along the rail corridor once works are complete involving the use of an excavator.

Site and service investigations

- Non-destructive digging (NDD) to investigate ground conditions and to confirm the area is free of underground services.

Piling rig removal

- Removal of two piling rigs and a crane on oversized trucks.

When

Guide wall and embankment widening works

- 9pm, Friday 24 May to 4am, Monday 27 May.

Site and service investigations

- 7am to 6pm, Thursday 16 to Friday 17 May

Piling rig removal

- 3am to 7am, Wednesday 15 May.

What to be aware of

- To ensure the safety of passengers and our workers, guide wall and embankment widening works located in areas close to the rail corridor can only be performed safely when trains are not operating
- Equipment operating within the worksites will include excavators, cranes, concrete trucks, delivery trucks and NDD trucks
- Access will be maintained at all times with traffic management in place to direct vehicles, cyclists and pedestrians during NDD works on Hobsons Road and the removal of piling machinery
- These works are expected to generate medium levels of noise and periods of loud noise during NDD activities. There will be periods of medium noise levels as trucks reverse down Childers Street and the piling and drilling rig is loaded and driven away
- The works are expected to generate low levels of vibration
- Use of light towers powered by generators will be required. We will position lights so they face away from residential properties, where possible
- To minimise disruption to the local community and rail users, important Metro Trains Melbourne maintenance works will also be carried out at this time. For more information on these works visit: metrotrains.com.au.

Travel Changes

To ensure the 24-hour works can take place safely, buses will replace trains from 8:30pm Friday 24 May to the last service on Sunday 26 May between North Melbourne and Sunshine stations on the Sunbury line.

For journey planning and service information please visit ptv.vic.gov.au or call **1800 800 007**.

Drone use

During May and June, drones will be used on occasion to film aerial footage of construction activities happening within the worksite.
