WORKS NOTIFICATION

24/7 RAIL ACCESS AND TEMPORARY SITE ESTABLISHMENT
ODDYS LANE AND ELECTRIC STREET, CREMORNE
WEDNESDAY 1 TO FRIDAY 31 JANUARY 2020

During January, major infrastructure upgrades continue for the Metro Tunnel as we prepare our network for bigger, better trains and deliver improvements for passengers across Victoria. These upgrades include 24/7 works in the rail corridor between South Yarra and Malvern stations. The project will use Oddy’s Lane and Electric Street, Cremorne to access the rail corridor and establish a temporary site shed during these works.

What we are doing

• Establishing a small site office on Oddy’s Lane, to provide worker amenities during 24/7 works
• Installing temporary stairs that will provide access into the rail corridor
• Delivering essential signalling equipment to site.

What to be aware of

• Additional truck movements will be required as materials are delivered to and from site
• Directional lighting will be in place for worker safety, where possible
• A generator will be connected to the site office, to provide power. Low levels of noise are expected from the generator
• Some parking will temporarily be removed along Oddy’s Lane and Electric Street to ensure vehicles can safely access the site
• Buses will be replacing trains from Thursday 2 to Friday 31 January visit www.ptv.vic.gov.au for more information.

When

• 24/7, Wednesday 1 to Friday 31 January.
