WORKS NOTIFICATION

OUT OF HOURS CONCRETE WORKS, SOUTH YARRA SIDING RESERVE
THURSDAY 28 MAY 2020

Works to construct the tunnel entrance in South Yarra are progressing. An upcoming concrete pour is required to complete a section of the tunnel entrance base slab. Due to the amount of concrete required, works will take place from 5am to 10pm. A continuous pour is required to ensure the structural integrity of the new tunnel entrance.

What we are doing

- Pouring concrete over reinforced steel, creating a section of the new tunnel base slab
- Smoothing and levelling the concrete surface
- These works will involve the use of a concrete pump and hand tools.

When

- Thursday 28 May, 5am to 10pm,

What to be aware of

- These works are expected to generate medium levels of noise, with some high-level noise when the concrete pump is in operation
- Directional lighting will also be in place. We will ensure this is pointed away from residential properties where possible
- Additional truck movements along William and Arthur streets as concrete trucks arrive and depart from site.

Health and safety

The health and safety of our workers and the community is our key priority as we continue to deliver the Metro Tunnel Project, as is supporting physical distancing measures in line with current health advice.

We have strict protocols in place to protect the safety of our construction workforce, including enhanced industrial cleaning arrangements, provision of personal protective equipment and measures to reduce staff contact, including staggered shifts.
