

Works Notification

Temporary partial closure of Edward Street Toorak

October 2021

As previously notified, a partial closure of Edward Street is required to ensure the safety of work force and the community while civil and services works take place in the rail corridor.

What we are doing

- Installing underground signalling cable assets, conduits and a retaining wall within the rail corridor
- Delivering materials to and from our rail access point at Edward Street
- Works require the use of a concrete pump, excavator, crane and crews with hand tools.

When

24-hour rail works

- 8pm Friday 22 October to 3am Monday 25 October
- 8pm Friday 29 October to 9pm Sunday 31 October.

Temporary parking removal on Edward Street

- 6pm Friday 22 October to 7am Monday 25 October
- 6pm Friday 29 October to 9pm Sunday 31 October.

What you should be aware of

- These works are expected to generate medium levels of noise with some high-level peaks. Where possible, higher impact works will be scheduled to take place during the day
- A temporary road closure, including parking removal on Edward Street, will be in place to ensure delivery activities to the rail access point are undertaken safely and efficiently. Additional truck movements will be required during this time
- A concrete pump will be set up between Edward Street and Canterbury Road to support works within the rail corridor
- Traffic management will be in place along Edward Street to facilitate local vehicles entering and exiting the road. Local residential access will be maintained during this time
- Generator-powered lighting towers are required while we complete night works. Where possible, lights will be positioned to face away from residential properties and noise reduction mats will be placed around generators.

Health and safety

Works safely resumed from 5 October on the Metro Tunnel with COVID-Safe Plans in place to help protect workers and the community.

Strict processes are in place to check and record the vaccination status of workers entering construction sites.
