

WORKS UPDATE

KENSINGTON CONSTRUCTION UPDATE 14 TO 21 DECEMBER 2018

Further to the December 2018 – January 2019 Kensington Construction Update, we wish to provide you with the following update on upcoming works.

Ground compaction works, Childers Street

Works to construct the road-side piling pad will start later this week. These works will involve the use of a compact roller machine to flatten the ground.

The compact roller is expected to be in use from **Friday 14 December for up to one week**. With inclement weather forecast for the next few days, the start date of these works may be subject to change.

Periods of moderate noise and some vibration may be experienced.

These works will be completed within the hours of **7am – 6pm, Monday to Friday, and 7am – 1pm, Saturdays**.

Extension of over-height vehicle detour to Friday 21 December

Further to information provided about the detour of over-height vehicles on Kensington Road, Derby Street and Tennyson Street, we would like to advise that the detouring of over-height vehicles will be extended by one week, until Friday 21 December. The detour will be in place between the hours of **7am – 6pm, Monday to Friday**.

The extended closure will allow for the completion of additional service works required to prepare for road-side piling activities. Road-side piling will commence in January 2019. Due to the nature and proximity of these works to Childers Street, the dedicated traffic lane on Childers Street needs to be closed.

Traffic controllers will be in place to safely direct traffic along the detour down Kensington Road, Derby Street and Tennyson Street. Public parking on Childers Street from the Bill Vanina Pavilion to Kensington Road will not be impacted.
