

WORKS NOTIFICATION

24/7 WORKS WITHIN THE RAIL CORRIDOR – CREMORNE TO MALVERN STATION FRIDAY 15 TO MONDAY 18 NOVEMBER

As part of the Metro Tunnel works to upgrade existing rail infrastructure between Cremorne and Malvern, we will be undertaking 24/7 works while trains on the Frankston, Cranbourne and Pakenham lines aren't running.

What we are doing

The following 24/7 works will be carried out across multiple locations between White Street, Cremorne and Malvern station:

- Trenching and excavation works, to install foundations for new overhead structures
- Installing new galvanised troughs that will hold cables that are essential to running trains along the new train tracks
- Pouring concrete to secure new rail infrastructure in place
- Removing and installing new rail track, laying ballast (crushed rock) and tamping
- Tamping involves compacting and levelling out ballast under the newly laid track to align it to its final position
- Non-destructive digging (NDD), to locate and expose underground services and cables
- NDD uses pressurised water to break up and vacuum soil to expose assets and services underground without damaging them.

When

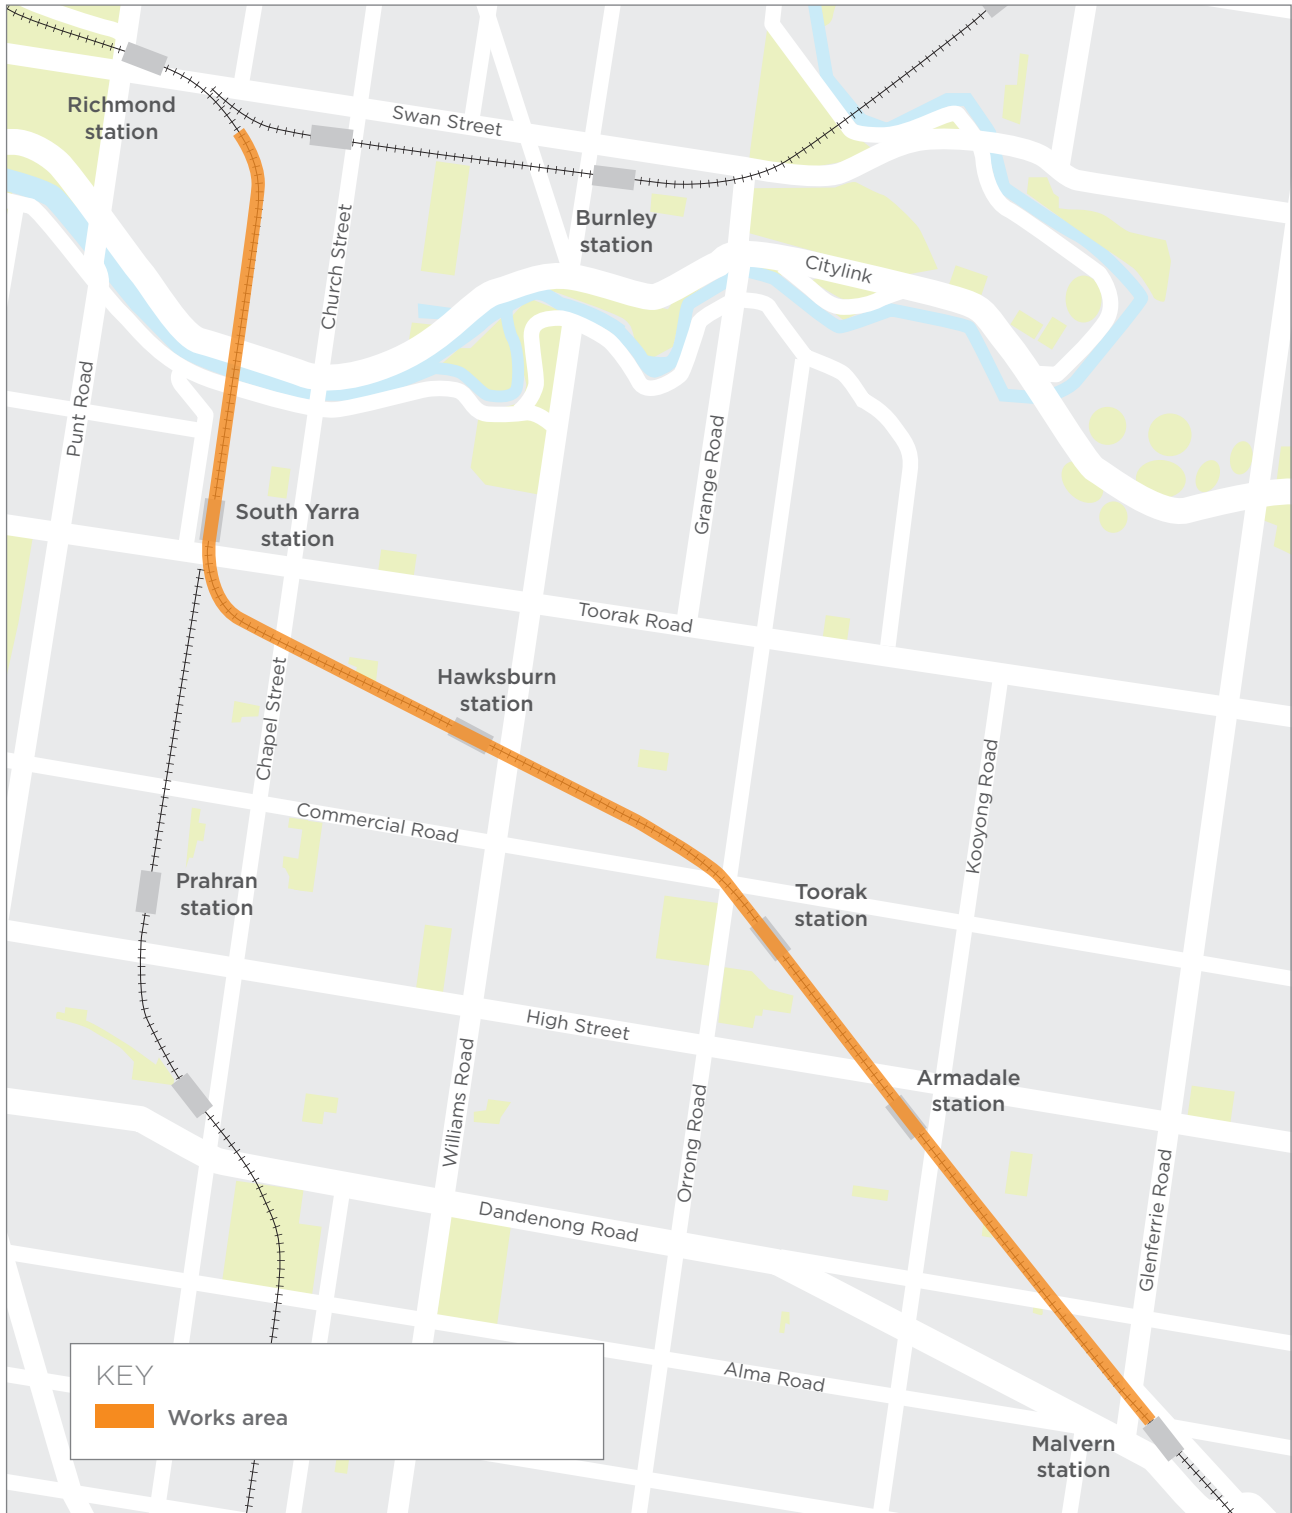

- Friday 15 to Monday 18 November
- 24/7 works, beginning after the last passenger service on Friday evening and finishing before the first passenger service on Monday morning.

What to be aware of

- These works are expected to generate medium levels of noise, with some periods of high-level noise
- At night these works will be completed under directional lighting to ensure the safety of our workers. Every effort will be made to direct these lights away from homes
- Some low-level vibration when tamping is being completed.

Traffic impacts

- Some parking will be temporarily removed to allow safe access for equipment entering and exiting the rail corridor between Cremorne and Malvern
- Directly affected residents and businesses will receive notification closer to the date
- Buses will replace trains while we complete these works. Please visit www.ptv.vic.gov.au for more information.
