

WORKS NOTIFICATION

SERVICES INSTALLATION MIDDLE FOOTSCRAY STATION ONGOING - 8 MAY 2020

Major construction is continuing along the Sunbury rail corridor in preparation for the Metro Tunnel. This notification provides an update on current works being completed in the rail corridor near Middle Footscray station.

What we are doing

- Installing communications and power services under the rail corridor near Middle Footscray station. This involves using excavators and boring machines to dig underground. A crane positioned in an empty lot on Buckley Street will then lift new infrastructure into excavated trenches for installation.
- During these works, four car parking spaces on Windsor Street (near Buckley Street) will be removed intermittently to allow construction vehicles to access the rail corridor
- Traffic controllers will be present at times to assist construction vehicle access, pedestrians and cyclist movements around construction sites.

When

- Ongoing until 8 May 2020
- 7am to 6pm, Monday to Friday
- 7am to 1pm, Saturdays.

What to be aware of

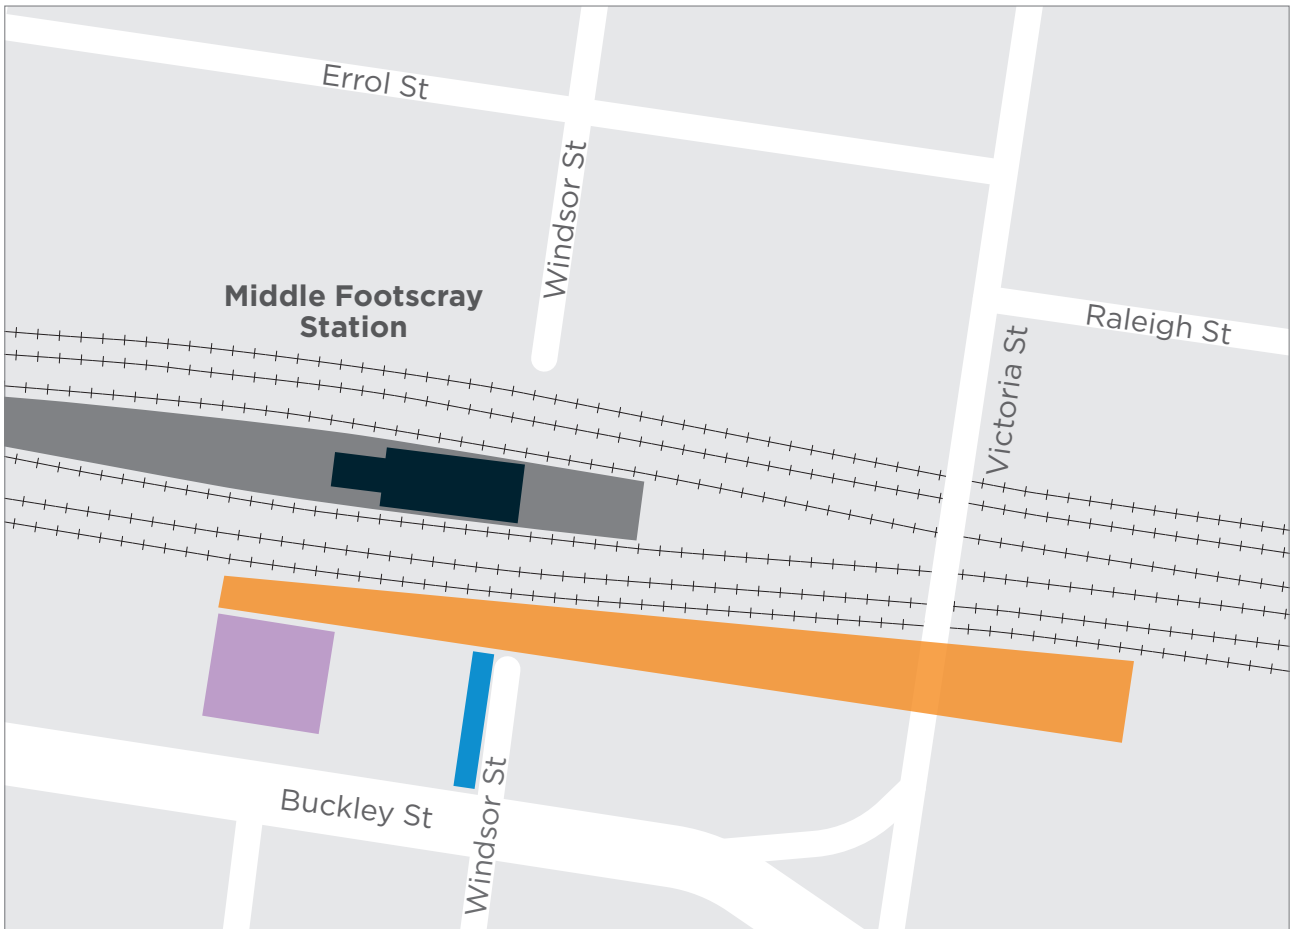

- These works are expected to produce medium levels of noise and vibration
- Construction machinery will access the rail corridor via Windsor Street (southern end) and Buckley Street

Health and safety

The health and safety of our workers and the community is our key priority as we continue to deliver the Metro Tunnel Project, as is supporting physical distancing measures in line with current health advice.

We have strict protocols in place to protect the safety of our construction workforce, including enhanced industrial cleaning arrangements, provision of personal protective equipment and measures to reduce staff contact, including staggered shifts.
