WORKS NOTIFICATION

24/7 STATION PLATFORM EXTENSION WORKS
HAWKSBURN STATION
WEDNESDAY 22 TO TUESDAY 28 JULY 2020

As part of the Metro Tunnel works to construct the eastern tunnel entrance in South Yarra, we will be undertaking 24/7 works at Hawksburn station and along the rail corridor. Works will involve extending a platform at Hawksburn station and maintenance works to service pits throughout the rail corridor.

What we are doing

• Installing drilling structural supports into the ground to create a strong foundation prior to constructing the extended platform at Hawksburn station later in the year
• Maintenance works on previously installed rail service pits within the rail corridor
• Non-destructive digging (NDD) to locate and expose underground services and cables (NDD uses pressurised water to break up and vacuum soil, exposing assets and services underground without causing damage)  
• Works will involve an excavator, NDD truck and hand tools.

What to be aware of

• Additional truck movements will be required during the 24/7 works, as materials are delivered from our rail access point at Edward Street to the work site
• A temporary site shed will be setup next to Hawksburn station on Luxton Road to provide essential worker amenities while we complete works at Hawksburn station
• These works are expected to produce medium levels of noise with some high level peaks
• Generator-powered lighting towers are required to complete these works during the night. Where possible, these will be positioned to face away from residential properties
• Please note that works will not impact train services. Visit www.ptv.vic.gov.au for more information.

When

Rail corridor works (24/7 works)
• 8am Friday 24 to 3am Monday 27 July.

Temporary parking removal on Luxton Road
• Wednesday 22 to Tuesday 28 July.
Health and safety

The health and safety of our workers and the community is our key priority as we continue to deliver the Metro Tunnel Project, as is supporting physical distancing measures in line with current health advice.

We have strict protocols in place to protect the safety of our construction workforce, including enhanced industrial cleaning arrangements, provision of personal protective equipment and measures to reduce staff contact, including staggered shifts.
