

DEVELOP A TRAVEL ACTION PLAN

During Metro Tunnel construction, road and public transport networks will be busier than normal.

This may have an impact on four main areas of your organisation:

- Travel to and from work for you and your employees
- Business travel
- Travel for your customers or other visitors
- Deliveries/collections and other suppliers

Each organisation will be affected by the Metro Tunnel construction in different ways and to different extents – and you will know best what is likely to work most effectively for your organisation. Developing a Travel Action Plan will assist your organisation to plan ahead for the transport impacts of Metro Tunnel construction. Use the template, available from the Your Journey website or information pack, to create an action plan for your organisation to identify ways to adapt existing arrangements that you already have in place or implement new solutions that suit your operations.

How MMRA can help your organisation

The Melbourne Metro Rail Authority (MMRA) has a team of transport advisors to help you keep your organisation moving while major construction is underway. MMRA can help you prepare for upcoming changes by:

- providing up to date information about changes to transport networks during Metro Tunnel construction
- undertaking an employee travel survey and analysing the results
- assisting your organisation to develop a Travel Action Plan
- offering ongoing support to help you implement your travel actions
- presenting at briefings and drop-in sessions for your employees, executive team and building managers.

Your Journey

For assistance in developing a Travel Action Plan please contact MMRA:
