Major construction is continuing in the CBD at the site of the future Town Hall Station. This update provides an outline of current and upcoming works in your area throughout September.

In August, the project team commenced the first stage of work to create a seamless passenger connection beneath Flinders Street. This included, relocating underground services and constructing a new pedestrian crossing west of Degraves Street.

The first stage of excavation works commenced at Federation Square following the demobilisation of the piling rig. At Flinders Quarter piling and excavation works continued. The project team at City Square completed the Collins Street driveway works and installed two gantry cranes in the acoustic shed.

**Construction snapshot**

Construction works are continuing within the Town Hall precinct during September and will include:

- Piling works at Flinders Quarter and Flinders Street
- Deck construction works at Federation Square
- Acoustic shed construction works at City Square and Federation Square
- Excavation works at Flinders Quarter, City Square and Federation Square.

Further information on these works can be found overleaf or at metrotunnel.vic.gov.au.

**When are we working?**

**Normal construction hours**

7am to 6pm, Monday to Friday
7am to 1pm, Saturdays

Some activities may be required to continue slightly past these hours. All efforts will be made to complete activities as scheduled.

**Out of hours**

Some works are required to take place out of normal construction hours. The timing of these works are outlined in the construction information overleaf.

**24 hours**

24 hour works are sometimes required during peak construction activities. The timing of these works are outlined in the construction information overleaf.

**Project Information Line**

24 hours a day, 7 days a week

Press 2 for Metro Tunnel
These works are expected to generate low levels of noise.

Shaft excavations and mucking out
City Square
12am to 1pm Monday to Thursday and 24 hours on Saturday, ongoing until 2021.

Mucking out from the western side excavated soil and rock into the acoustic shed for the Flinders Quarter site throughout September.

Overhead gantry works
Swanston Street
24 hours, Monday to Friday and 7am to 10pm on Saturdays, ongoing until 2019.

The pedestrian footpath on the western side of Swanston Street between Flinders Street and Colling Lane will be closed between 7am and 10pm on weekdays and 7am to 10pm on Saturdays for works on the overhead gantry and amenity sheds.

There will be a number of changes to traffic on Swanston Street between Flinders Street and Swanston Street for oversized deliveries to Flinders Quarter in late-September.

Tower crane mobilisation
Flinders Quarter
3am to 8am, late-September 2019.

A tower crane will be mobilised to the Flinders Quarter site between 3am and 8am.

Amenity shed demolition
Flinders Quarter
3am to 6am, mid-September 2019.

Amenity sheds located within Flinders Quarter will be demolished between 3am and 6am.

Delivery for piling and excavation works
Flinders Quarter
3am to 1pm, late-September into October 2019.

There will be deliveries of steel cages for piling works and excavator spoil from the City Square site onto Swanston Street.

Piles will be ‘broken back’ (levelled off) using a crane and handheld tools and are expected to generate medium levels of noise.

Traffic signal and line marking works
Intersection of Queen and Collins, Flinders Lane and Elizabeth, Flinders and Queen streets
10pm to 1am, Monday 2nd and Monday 9th September 2019.

Traffic signals will be modified to reduce the signal cycle length.

Pile break back and capping beam works
Flinders Quarter
3am to 8am, Monday to Thursday and 24 hours, Saturday ongoing until November 2019.

These works will involve the removal of pile cap concrete and removal of steel reinforcement from concrete piles.

Piles will be broken back (levelling off) using a backhoe and excavator. A cap beam will then be installed to prevent the piles from moving.

Shaft excavations
Flinders Quarter
3am to 8am, ongoing until Sunday 29th September 2019.

Shaft excavations will continue at Flinders Quarter and involve the use of an excavator, bolting equipment and trucks to remove spoil.

These works will involve the use of excavators, rock saws and handheld tools and are expected to generate low levels of noise.

City Square
3am to 1pm Saturday, ongoing until November 2019.

There will be deliveries of steel cages for piling works and excavator spoil from the City Square site onto Swanston Street.

Utility investigation
Flinders Quarter
3am to 8am and 9am to 12am, ongoing until December 2019.

Sewer and stormwater cleaning and inspection works
Swanston Street
7am to 10pm, Monday to Friday.

There will be cleaning of stormwater and sewerage pipes using a peristaltic pump to remove any spoil from the pipes.

There will be intermittent traffic and pedestrian changes during these works.

Utility service cleaning and inspections
Swanston Street
10pm to 1am, intermittently throughout September.

There will be intermittent cleaning of street infrastructure using high pressure water jets.

Traffic and transport impacts
Flinders Lane and Elizabeth, between Swanston Street and Queen Street
10pm to 1am, ongoing until 2021.

There will be intermittent large-scale disruptions to traffic and pedestrian movements.

• On weekends, the Flinders Lane footpath will be closed from 8pm on Friday 2nd September until 6am on Monday 5th September 2016.

Traffic signals and line marking works
Flinders Street and Swanston Street
8pm to 10pm, Sunday to Thursday.

There will be intermittent traffic signal modifications and line marking works.

Traffic signals and line marking works
Flinders Street
7am to 10pm, mid-September to late-September, ongoing until 2019.

Traffic signals will be modified to reduce the signal cycle length.

Pile break back and capping beam works
Flinders Quarter
3am to 8am, Monday to Thursday and 24 hours, Saturday ongoing until November 2019.

These works will involve the removal of pile cap concrete and removal of steel reinforcement from concrete piles.

Piles will be broken back (levelling off) using a backhoe and excavator. A cap beam will then be installed to prevent the piles from moving.

These works will involve the use of excavators, rock saws and handheld tools and are expected to generate low levels of noise.

Flinders Lane and Elizabeth streets
3am to 1pm, ongoing until 2021.

There will be deliveries of steel cages for piling works and excavator spoil from the City Square site onto Swanston Street.

There will be intermittent traffic and pedestrian changes during these works.

These works will involve the use of excavators, rock saws and handheld tools and are expected to generate low levels of noise.

Flinders Street and Swanston Street
3am to 1pm, ongoing until 2019.

There will be deliveries of steel cages for piling works and excavator spoil from the City Square site onto Swanston Street.

Communication between the piles will be completed out of normal working hours.

• These works will require the use of normal working hours two nights per week, with a hammer attachment and are expected to generate noise and vibration to high levels.

• These works will be completed out of normal working hours.

• These works will involve the use of excavations, cranes, and trucks to remove spoil.

• These works are expected to generate medium levels of noise.

Deck construction
Flinders Quarter
3am to 8am, ongoing until December 2019.

There will be deliveries of steel cages for piling works and excavator spoil from the City Square site onto Swanston Street.

Tower crane mobilisation
Flinders Quarter
3am to 8am, ongoing until December 2019.

A tower crane will be mobilised to the Flinders Quarter site between 3am and 8am.

Amenity shed demolition
Flinders Quarter
3am to 6am, mid-September 2019.

Amenity sheds located within Flinders Quarter will be demolished between 3am and 6am.

Delivery for piling and excavation works
Flinders Quarter
3am to 1pm, late-September into October 2019.

There will be deliveries of steel cages for piling works and excavator spoil from the City Square site onto Swanston Street.

Piles will be ‘broken back’ (levelled off) using a crane and handheld tools and are expected to generate medium levels of noise.

• On weekends, the Flinders Lane footpath will be closed from 8pm on Friday 2nd September until 6am on Monday 5th September 2016.
FLINDERS STREET

Town Hall Station to Flinders Street Station underground link

From 8pm on Monday 2 September, both eastbound lanes on Flinders Street between Swanston and Elizabeth streets, will be closed for up to three years. There will also be changes to the northern footpath between Degraves and Swanston streets.

Changes to overhead canopies and pedestrian gantry installation

Flinders Street
10pm to 5am, throughout September

- A pedestrian safety gantry will be installed on the Flinders Street northern footpath between Degraves Street and the Flinders Quarter entrance. There will also be changes to overhead canopies on Flinders Street.

Changes to overhead tram wires and posts

Flinders Street
1am to 5am, between Friday 20 and Thursday 26 September

- Tram pole posts and overhead wires need to be altered on Flinders Street, adjacent to tram stop number 5. These works must occur at night when tram services are not operational.

Piling works

Flinders Street
7am to 6pm Monday to Friday and 7am to 1am Saturdays, throughout September

- Piling works can only take place at a safe distance away from the tram stop during normal working hours.
- These works are expected to generate medium to high levels of noise.

Piling works

Flinders Street
9pm to 5am, Monday 9 to Thursday 12 September

- Piling works will occur on Flinders Street between Degraves and Swanston streets for four nights in September.

Flinders Street
24 hours, Wednesday 2 to Monday 7 October

- Piling works will occur on Flinders Street between Degraves and Swanston streets for six days and nights in October.

Service relocations

Flinders Street, between Degraves and Swanston streets
6pm to 6am, selected nights, from September to December

- These works involve service scanning, saw cutting, non-destructive digging, micro-tunnelling and excavations. Impacted stakeholders will be notified with more information prior to these works.

Changes to tram services

- Tram services will not run between tram stop 4 and tram stop 6 between Monday 9 and Thursday 12 September from 9pm to 5am (4 nights)
- Tram services will not run between tram stop 4 and tram stop 6 between Wednesday 2 and Monday 7 October (6 days and nights).

Oversized deliveries

Flinders Street
3am to 5am, between Monday 2 and Thursday 12 September

- Oversized deliveries to Flinders Street must occur when trams are not operational.
- These deliveries will include the mobilisation of a piling rig, crane and excavators and are expected to generate low levels of noise.

More information

While the Metro Tunnel Project will be a significant boost for Melbourne, construction activities in a busy environment can be challenging for local businesses. In response to this, our Business Support team assists businesses through the disruption and any permanent changes that take place.

Business support

Join us in supporting the Ice Bar Melbourne at The Atrium, Federation Square and the businesses around our Town Hall Station sites. Please see the flyer in this notification for more information.

We look forward to promoting more local businesses as the project progresses.
