

Important information

**Temporary parking removal
Oban Place, South Yarra**

Thursday 22 to Monday 26 July 2021

Underground cable installation within the rail corridor

Further to the 24-hour rail works from Friday 23 to Monday 26 July between South Yarra and Caulfield stations, two parking spaces on Oban Place are required to assist with the underground cable installation within the rail corridor.

The two spaces will be used for construction activities and heavy plant movements. A tipper truck will acquire the two spaces to assist with the installation. Additional truck movements will be required along Oban Place and Oban Street, as materials being delivered to our works area.

Traffic management will be in place to safely facilitate local traffic. Access to local businesses and residential properties will be maintained during this time.

Works are expected to generate low to medium level of noise with some high-level peaks while we undertake works within the rail corridor.

Generator-powered lighting towers are required while we complete night works. Where possible, lights will be positioned to face away from residential properties.

When:

Thursday 22 to Monday 26 July

Where:

Oban Place, South Yarra
