

Works Notification

Temporary single lane closure of Queens Avenue Queens Avenue, Caulfield East

Thursday 14 October to Friday 15 October

Works to install the relocatable equipment building (REB) at Queens Avenue have been rescheduled to commence overnight on Thursday 14 October.

What we are doing

- Installing an REB at Queens Avenue near Caulfield station to house rail services equipment that will power bigger, more modern trains
- The REB will be built offsite and delivered to the site pre-constructed
- A 130 tonne crane will be set up within the site compound to safely lift the building into place within the rail corridor
- The REB will be delivered to site on an oversize truck where it will be lifted into place
- The truck will travel via Dandenong Road, turn into Sir John Monash Drive and drive into Queens Avenue, where the REB will be lifted by a crane from Queens Avenue into site.

When

Temporary lane closure on Queens Avenue

- 7am Thursday 14 October to 7am Friday 15 October.

Delivering and installing the REB

- Between 10pm Thursday 14 October and 5am Friday 15 October.

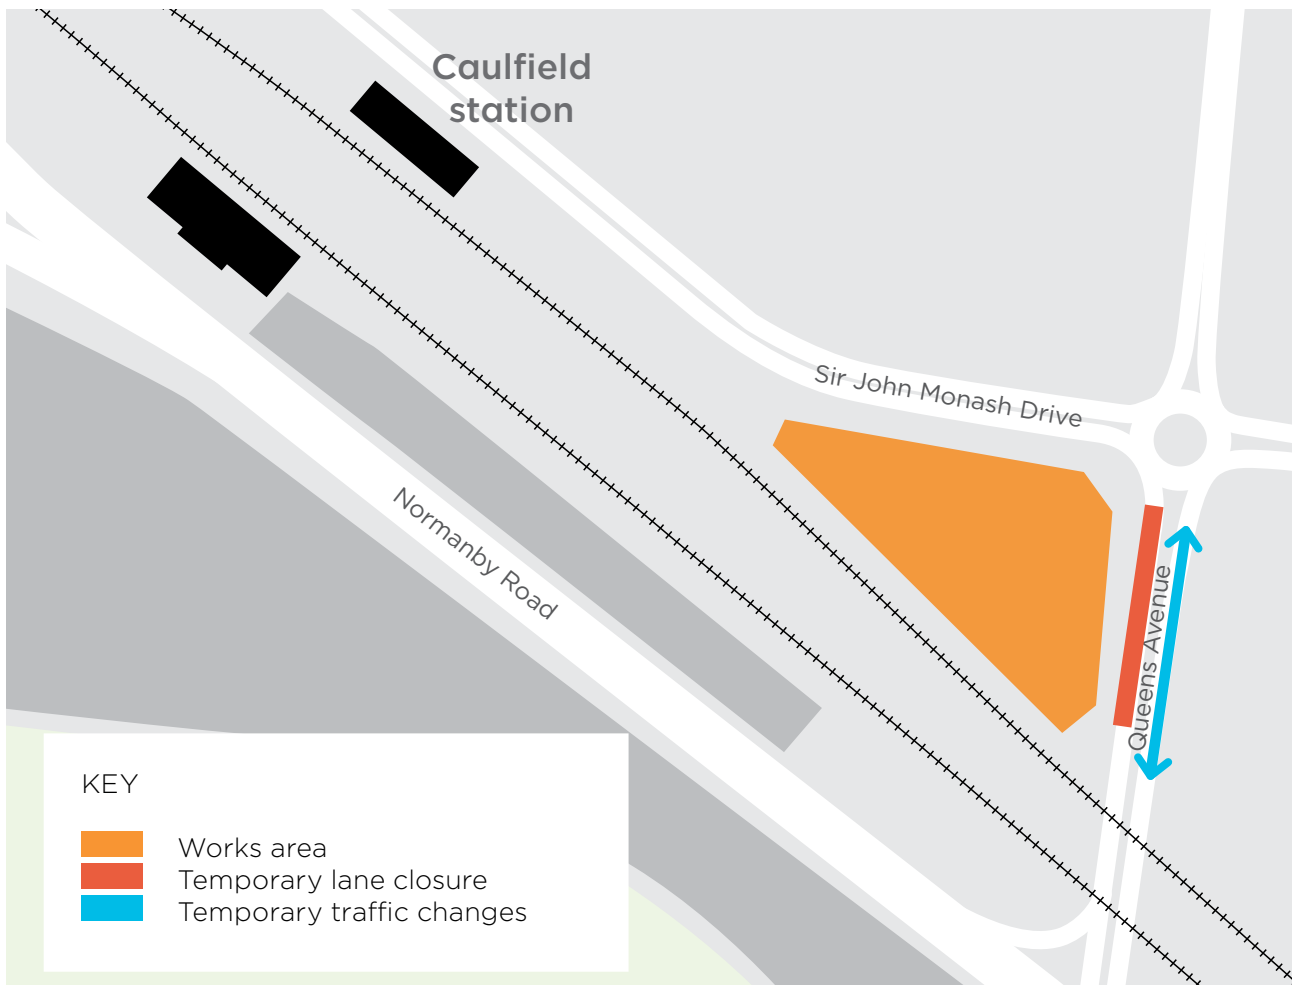

What you should be aware of

Traffic changes

- The north bound lane of Queens Avenue will be temporarily unavailable in order to accommodate the delivery during this time
- Traffic management will be in place to facilitate traffic flow in both directions and pedestrian access along Queens Avenue and Sir John Monash Drive at all times.

Noise

- Works are expected to generate medium levels of noise when the crane is operating
- Overnight works will be completed under directional lighting to ensure the safety of our workers. Every effort will be made to direct these lights away from residential properties.

Health and safety

Works will resume safely from 5 October on the Metro Tunnel with COVID-Safe Plans in place to help protect workers and the community.

Strict processes are in place to check and record the vaccination status of workers entering construction sites.
