

## WORKS NOTIFICATION

### OUT OF HOURS WORKS WEST FOOTSCRAY STATION

**28 APRIL-5 MAY 2019**

Works are required in the rail corridor at West Footscray station to identify the location of underground services and prepare the area to build a new platform and track. The new infrastructure will be built as part of the Metro Tunnel Project.

#### What we are doing

##### Site and service investigations

- Non-destructive digging (NDD) to investigate ground conditions and to confirm the area is free of underground services.

##### Work site access construction

- Excavating excess soil and filling the area with crushed rock
- Using a vibrating roller to flatten the ground
- This construction will allow workers to cross rail track and safely access the work site.

#### When

##### Site and service investigations

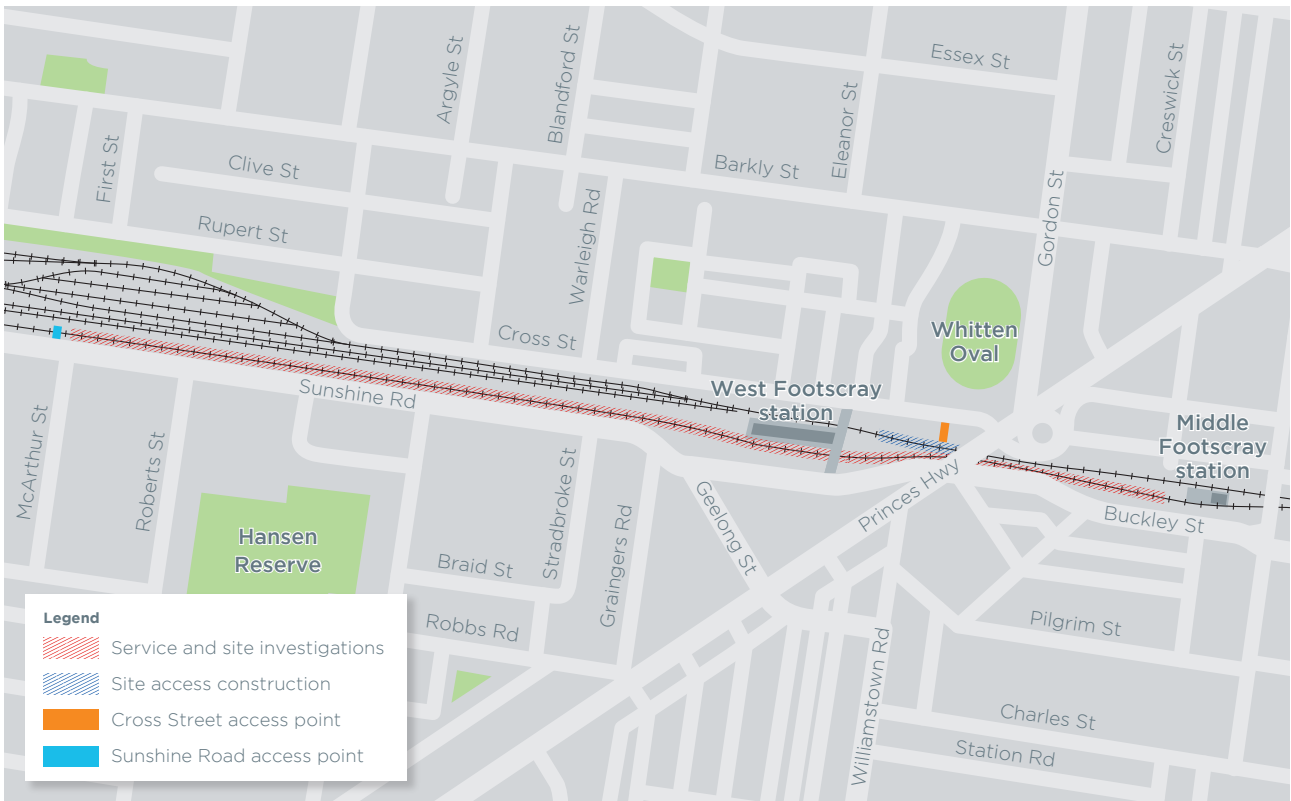

- 8pm to 5am, Sunday 28 April to Thursday 2 May

##### Work site access construction

- 8pm Saturday 4 May to 7am Sunday 5 May.

#### What to be aware of

- To ensure the safety of passengers and our workers, these activities can only be performed safely when trains are not operating
- These works are expected to generate medium levels of noise, with intermittent periods of high level noise during use of vibrating rollers
- The works are expected to generate low levels of vibration
- The NDD truck will enter the rail corridor via Sunshine Road
- Construction vehicles will access the rail corridor via Cross Street
- The use of temporary light towers powered by generators will be required during rail shutdown periods. Lights will be positioned so they face away from residential properties where possible.
