

## WORKS NOTIFICATION

# UPDATE – CONCRETE PUMP INSTALLATION AND GANTRY WORKS, SWANSTON STREET MAY – JUNE 2020

Major works on the Metro Tunnel are underway to support construction of the new State Library Station at the northern end of Swanston Street in the CBD.

Works to install a concrete pump on Swanston Street adjacent to the La Trobe Street site will continue. During this time, works to enable gantry installation and welding will also take place adjacent to the La Trobe Street site.

### What we are doing

- Removing a tram pole on Swanston Street using a crane, elevated work platform and hand tools
- Installing lines under the Swanston Street footpath using an excavator, concrete truck and hand tools
- Steel framing, timber lining, steel sheeting and electrical fit out on the gantry using a welder, grinder and small tools
- Installing a concrete pump on Swanston Street, between La Trobe and Little La Trobe streets (refer to map)
- Installing a pram ramp between Little La Trobe and Swanston streets (refer to map) using an excavator and concrete truck.

### What to be aware of

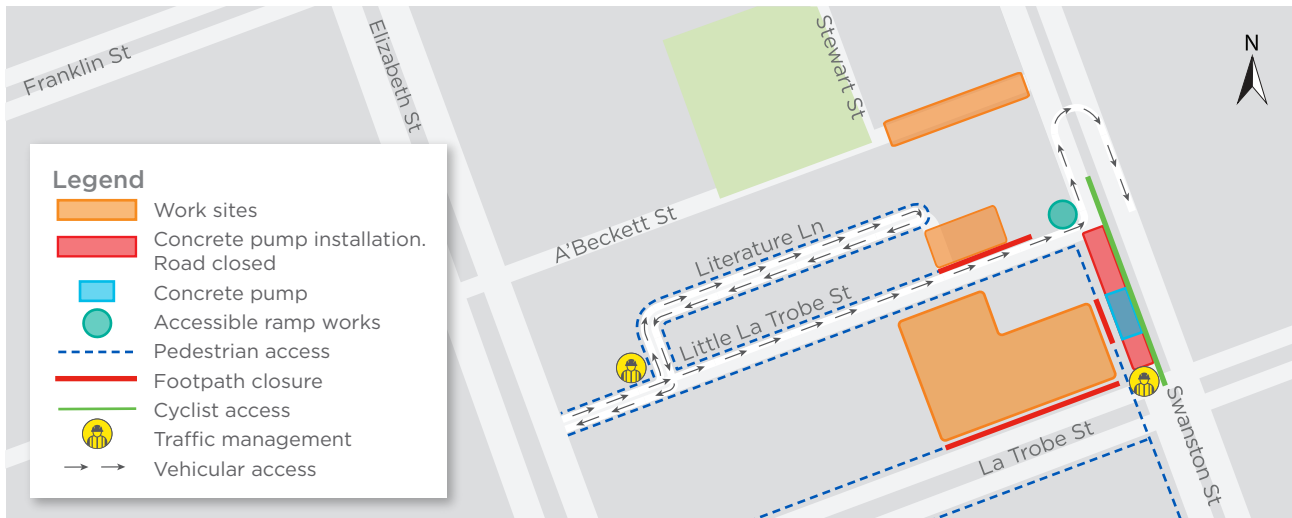

- The purpose of the concrete pump is to facilitate the high volumes of concrete required for the construction of the future State Library Station
- The northbound lane on Swanston Street between La Trobe and Little La Trobe streets will be closed for one day during unloading of the concrete washout gantry
- Access to Little La Trobe Street and Literature Lane during the one-day closure will be via Elizabeth Street (refer to map)
- Swanston Street north of Little La Trobe Street will be accessible via Elizabeth and Little La Trobe streets to motorists during the one-day closure (refer to map)
- Footpath closures will be required on Swanston Street (refer to map)
- Some works are required to take place at night and will generate medium to high levels of noise
- CitiPower are required to carry out electrical works on Swanston Street at night for about three weeks starting in June. CitiPower will notify any directly impacted stakeholders.
- Local access for residents and businesses will be maintained at all times
- The concrete pump will remain in place for about three years.

## When

- 7am – 6pm, Monday to Saturdays
- Footpath closures on Swanston Street will be required from 7am to 6pm from Tuesday 26 May until Saturday 30 May 2020 during line installation and gantry works. From 1 June, works under footpath closure may be required to take place at night due to increased pedestrian numbers

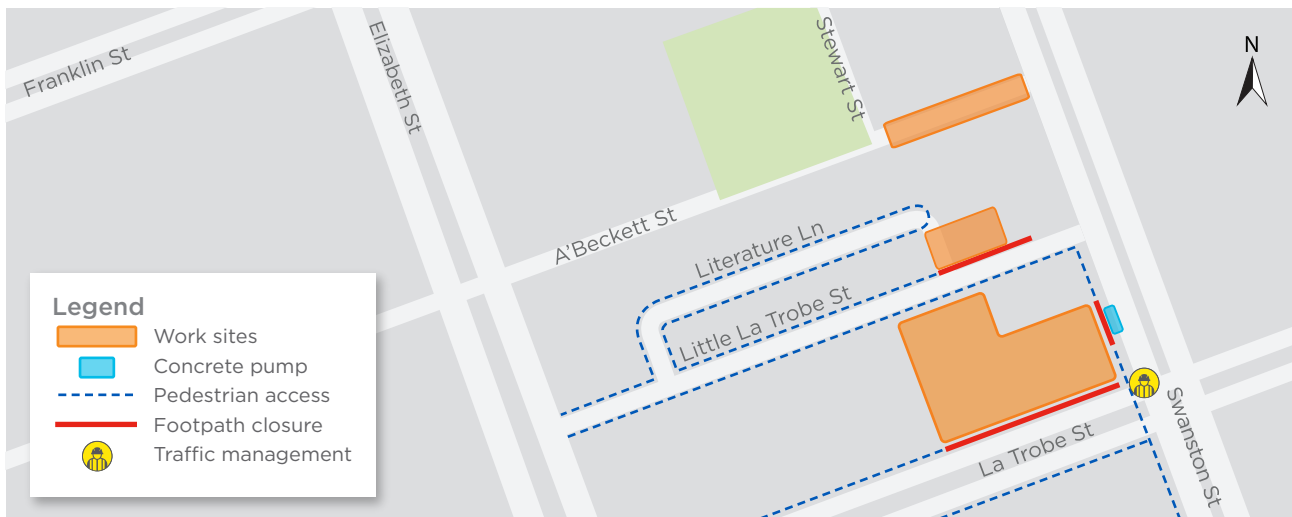

- A tram pole will be removed on Swanston Street in one night in June
- A pram ramp will be installed between Little La Trobe and Swanston streets in June. This will take up to five days
- CitiPower works will take place from 7pm to 7am starting in June. This will take up to three weeks
- More information will be provided to directly impacted stakeholders closer to the date.

## Traffic and footpath conditions (one day road closure in June)
