

## WORKS NOTIFICATION

### OVERNIGHT DELIVERIES AND TREE REMOVAL WILLIAM STREET, SOUTH YARRA

#### MONDAY 1 TO FRIDAY 12 JUNE 2020

As part of the Metro Tunnel works to construct the eastern tunnel entrance in South Yarra, deliveries of the new Osborne Street bridge beams will take place over two nights in June. Due to the size of the beams, some street furniture and a tree on William Street will need to be removed prior to delivery to allow for safe entry into the construction site.

#### What we are doing

- Delivering two oversized steel beams to site. Oversized deliveries are required to occur between 1am and 5am. Trucks will travel west bound along Toorak Road, turn left into William Street and then reverse into site where they will be unloaded by cranes
- Removal of one tree and some street furniture on William Street to facilitate access to site. These will be removed during the day
- The street furniture will be removed with hand tools and a small work crew. The furniture will be reinstated after the beams have been delivered
- The tree will be removed using chainsaws and will then be mulched
- Every effort has been made to minimise tree removal. Two trees will be replaced for every tree removed by the project.

#### When

##### Removal of tree and street furniture

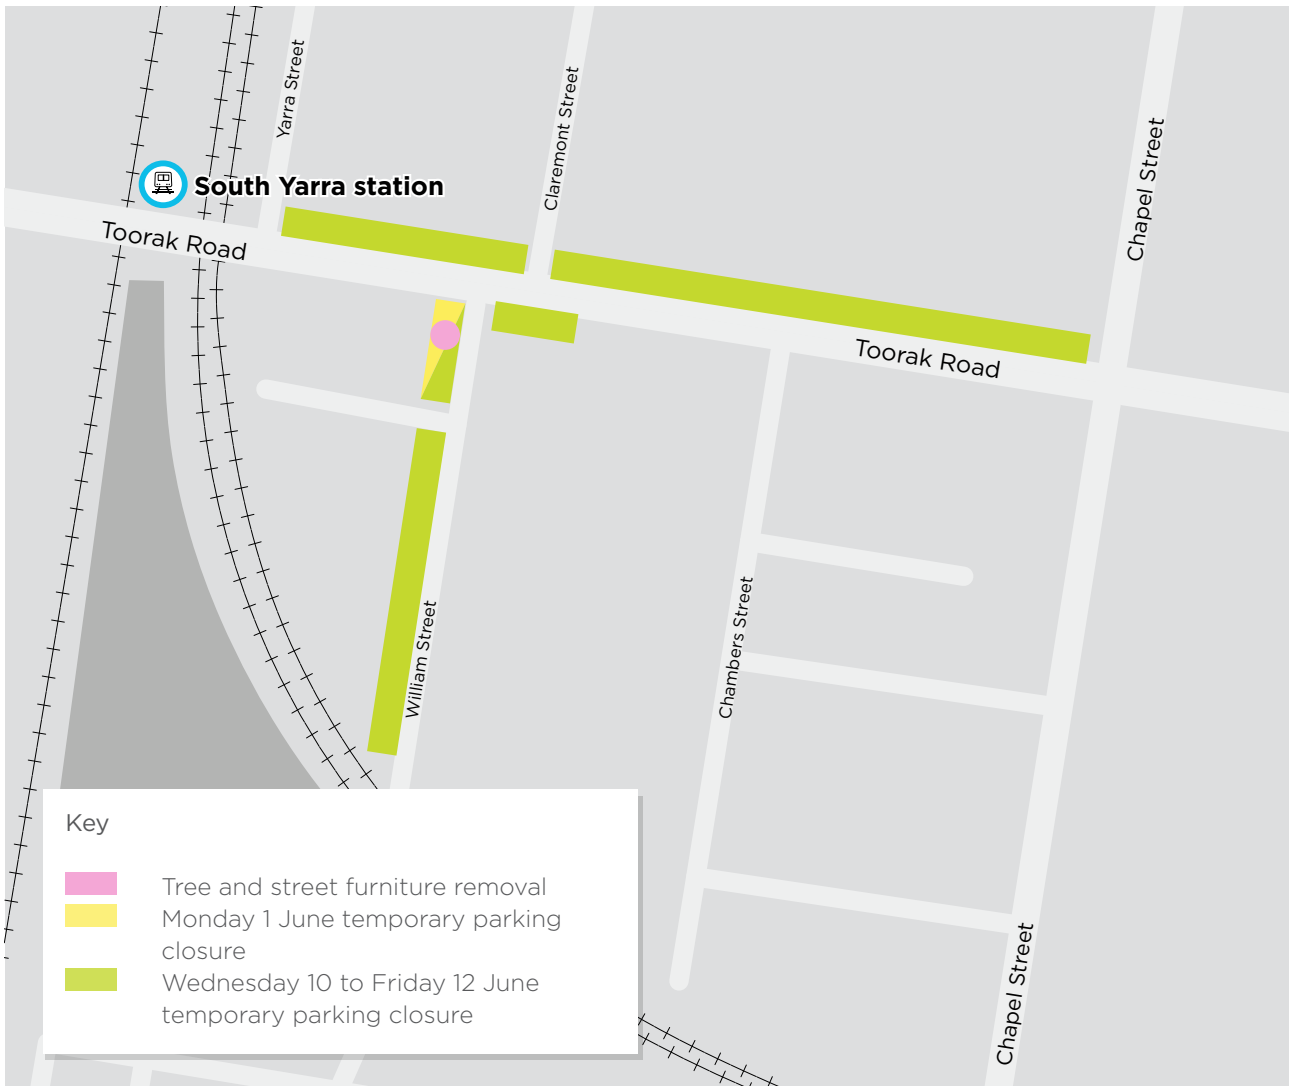

- Monday 1 June
- 7am to 6pm.

##### Overnight deliveries

- Thursday 11 and Friday 12 June
- 1am to 5pm.

#### What to be aware of

- Traffic management will be in place along Toorak Road and William Street when the beams are delivered to site. Traffic will be temporarily stopped as the beams are maneuvered into site
- Some parking along Toorak Road and William Street will be temporary occupied during the delivery of bridge beams and when the tree and street furniture are removed
- Works are expected to generate medium levels of noise with some high levels of noise during the beam deliveries
- These works will be completed under directional lighting to ensure the safety of our workers. Every effort will be made to direct these lights away from homes
- The tree and street furniture removal works are expected to generate medium levels of noise.

### Health and safety

The health and safety of our workers and the community is our key priority as we continue to deliver the Metro Tunnel Project, as is supporting physical distancing measures in line with current health advice.

We have strict protocols in place to protect the safety of our construction workforce, including enhanced industrial cleaning arrangements, provision of personal protective equipment and measures to reduce staff contact, including staggered shifts.
