

Works notification

Road defect repair Dallas Brooks Drive

Tuesday 2 March 2021

A section of Dallas Brooks Drive is in need of repair and has been closed in recent days. Dallas Brooks Drive forms part of our primary trucking route for trucks leaving Edmund Herring Oval carrying soil from tunnelling operations. City of Melbourne have arranged for an urgent repair of the road.

What we are doing

- Repairing the road surface at Dallas Brooks Drive

What to be aware of

- Contractors are currently working to repair the damaged area of roadway on Dallas Brooks Drive
- The works will generate low levels of noise, and will be completed during daytime work hours
- While the road is closed for repair, trucks will be required to use the approved secondary route for soil trucks which is along Domain Road and then turning right onto Park Street
- Metro Tunnel trucks will use the secondary route during the day while the road is closed for repair
- These works are expected to take two days to complete
- As Metro Tunnel trucks need to continue 24/7, the contractor delivering the works will look to ensure that the road is reopened to trucks at the end of the first days work, with finishing works completed the following day

- In the event of any unforeseen delays, if the road cannot be temporarily reopened overnight, trucks will be required to use the secondary route overnight
- As soon as the road is repaired and reopened, soil trucks will recommence using the primary trucking route of Dallas Brooks Drive and Linlithgow Avenue
- Please also note that during the Moomba long weekend, the secondary route will also need to be used.

When

Wednesday 3 March - Thursday 4 March 2021

(Moomba: Friday 5 March - Monday 8 March 2021)

Health and safety

Works on the Metro Tunnel Project are progressing with strict COVIDsafe Plans in place.

The health and safety of our workforce and community remains our top priority.
