

WORKS NOTIFICATION

SERVICE INVESTIGATION WORKS AT TOORAK, ARMADALE AND MALVERN STATIONS **FRIDAY 8 TO MONDAY 11 NOVEMBER**

As part of the Metro Tunnel works to construct the tunnel entrance in South Yarra and prepare for additional power upgrades along the rail corridor, we will be undertaking service investigation works at Toorak, Armadale and Malvern stations. These activities will help inform detailed planning and design.

What we are doing

- Works to identify essential services and cables that exist near the station platforms
- Non-destructive digging (NDD), to locate and expose underground services and cables
- NDD uses pressurised water to break up and vacuum soil to expose assets and services underground without damaging them.

When

- Friday 8 to Monday 11 November
- 7am to 7pm.

What to be aware of

- These works are expected to generate medium levels of noise, with some periods of high-level noise.

Traffic impacts

- Some parking will be temporarily removed on Osment Street in Armadale to allow equipment to move safely in and out of the rail corridor while we complete these works.
