WORKS NOTIFICATION

CONSTRUCTION UPDATE – A’BECKETT STREET, CBD PRECINCT

22 OCTOBER – DECEMBER 2018

Major works on the Metro Tunnel are underway to support construction of the new State Library Station at the northern end of Swanston Street in the CBD.

From Monday 22 October, Cross Yarra Partnership (CYP) will commence construction works within the A’Beckett Street site. During this time, there will be increased activity around A’Beckett Street as site establishment works take place.

What we are doing
Shaft excavation works are continuing 24 hours a day inside the acoustic shed at A’Beckett Street. This month, increased activity can be expected around A’Beckett Street. These works will involve:

• Removing oversized equipment, materials and staff facilities
• Line-marking
• Investigating underground services
• Delivering site sheds and other materials and equipment
• Constructing a covered walkway on the existing gantry over Stewart Street for workers to travel between the site support area and the acoustic shed
• Installing hoarding, barriers, and fencing around the work sites
• Removing and installing traffic signs.

When
• 7am – 6pm, Monday to Fridays
• 7am – 1pm, Saturdays
• 24/7 works within acoustic shed.

What to be aware of
In addition to increased traffic movement and the presence of workers around the area, this work will generate medium to high levels of noise

• Oversized equipment deliveries will be required to take place overnight, outside of peak time, to minimise disruption to motorists
• A range of equipment will be used including cranes, vacuum truck, trucks, excavators, saw cutters, jackhammers, generators, scissor lift, elevated work platform, hand tools (mechanical and non-mechanical)
• Current traffic arrangements will remain in place on Stewart, Franklin and A’Beckett Street for up to six weeks to allow site establishment works to take place safely
• Once site establishment works are complete, Stewart Street will re-open as a one-way street, in a southbound direction
• Access to businesses and residential buildings will be maintained at all times
• Traffic management will be in place to safely guide pedestrians, cyclists, and motorists around the work area

• Barrier relocation and line marking works will take place overnight on A’Beckett Street on Tuesday 23 October. If these works are unable to completed in the first shift, they will be completed in the next available night shift.
