WORKS NOTIFICATION

OUT OF HOURS WORKS
LEUNIG PLACE, FOOTSCRAY
16 FEBRUARY – 9 MARCH 2020

As major construction continues along the Sunbury Line in preparation for the Metro Tunnel, we wish to advise that upcoming out of hours works are required in your area.

Buses will replace trains on sections of the Sunbury Line between Friday 6 March and Monday 9 March, during which works will take place 24 hours a day along the rail corridor between Tottenham station and the Maribyrnong River.

To facilitate safe access into the rail corridor for specialised vehicles during these works, a temporary rail access site has been constructed on a vacant block of land at Leunig Place, Footscray.

What we are doing

Out of hours material delivery
• To prepare the rail corridor for 24/7 works, materials will be delivered to Leunig Place during the day and lifted onto tracks using a forklift at night when trains are not running.

24/7 access to the rail corridor
• Accessing the rail corridor with construction vehicles on a 24-hour basis.

When

Out of hours material delivery
• 7am Sunday 23 February to 4am, Monday 24 February
• 7am Wednesday 26 February to 4am, Thursday 27 February.

24/7 access to the rail corridor
• 8pm, Friday 6 March to 4am, Monday 9 March.

What to be aware of

• These works are expected to produce medium levels of noise and vibration
• During the 24/7 works, Leunig Place will be closed to public traffic, with traffic controllers present to manage access for pedestrians and local residents. Local access to Ryan Street will also be maintained
• The use of generator-powered lighting towers will be required during nightworks. We will work closely with residents to manage light impacts
• An increase in construction machinery will be travelling on local roads to access the rail corridor. Traffic controllers will be present at times to assist construction vehicle access, pedestrians and cyclist movements around construction sites
• For the safety of rail users and our workers, these activities can only be performed safely when trains are not running.
