

## WORKS NOTIFICATION

### LA TROBE STREET TOWER CRANE INSTALLATION MARCH 2020

Major works on the Metro Tunnel are underway to support construction of the new State Library Station at the northern end of Swanston Street in the CBD.

A tower crane will be installed at the La Trobe Street site from 8pm Friday 13 March until 8pm Friday 20 March 2020 to facilitate the top down excavation and construction works required for the future State Library Station.

#### What we are doing

- Constructing a base slab using concrete pumps and trucks
- Installing a gantry upon which the tower crane will be mounted on
- Mobilising a supporting crane to install the tower crane at the La Trobe Street site using heavy vehicles, light towers and hand tools.

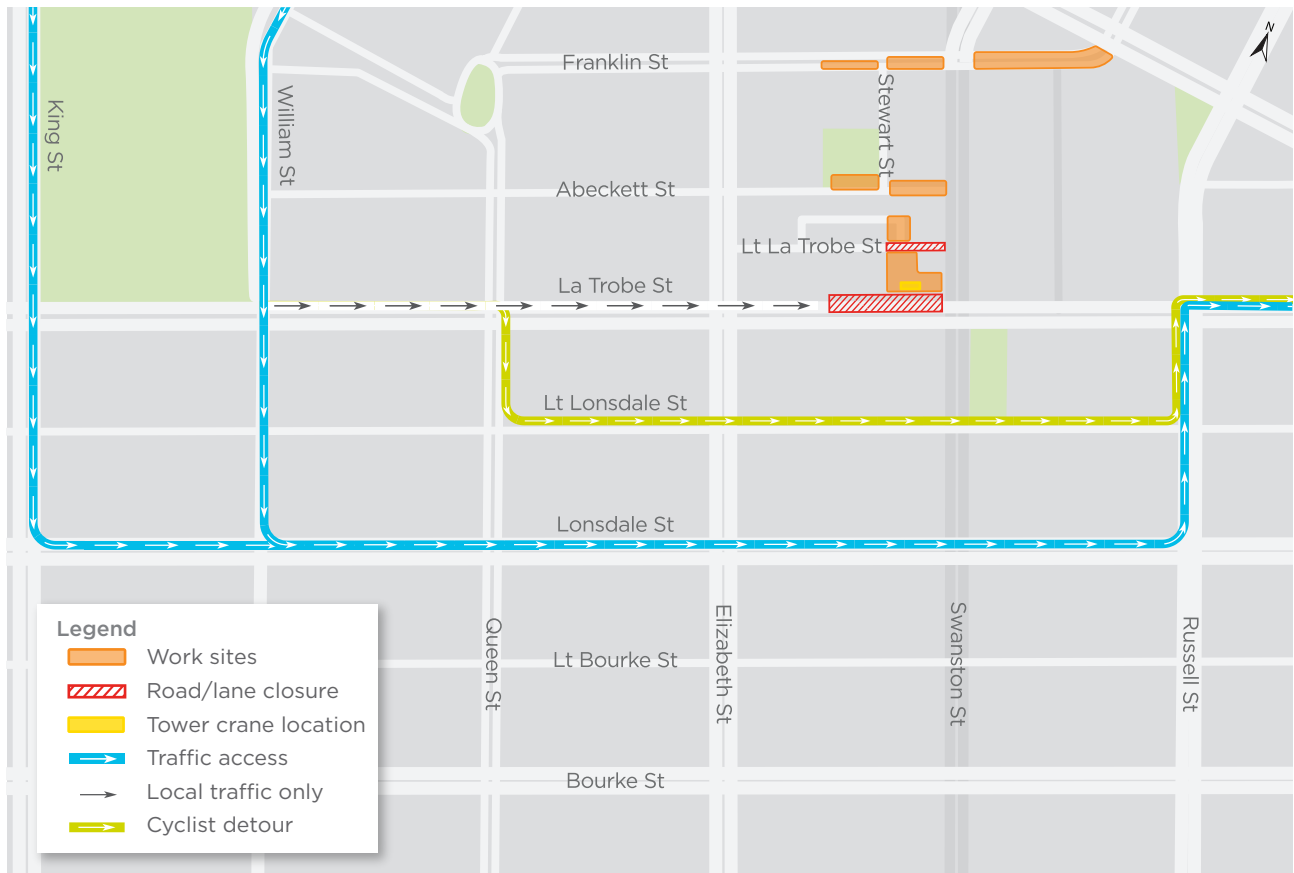

#### What to be aware of

- The tower crane will be located on the southern side of the site (refer to map) and will be in place for approximately three years
- The arm of the tower crane is known as the boom. The boom is up to 54 metres long but operates at an angle, preventing any movements over adjacent properties
- The boom will rotate when the tower crane is not in use. This movement is known as weather vaning and allows the crane to stand safely during windy weather conditions

- All lifts using the tower crane will occur from within the La Trobe Street site
- The eastbound lane on La Trobe Street will be closed from 8pm Friday 13 March until 8pm Friday 20 March between Elizabeth and Swanston streets, with no through access to Swanston Street to facilitate these works (refer to map)
- Little La Trobe Street will be closed from Swanston Street to motorists, cyclists and pedestrians during the assembly of the crane boom (refer to map). This work will take place on the final day of the La Trobe Street eastbound lane closure
- Local access for residents and businesses will be maintained at all times
- Works required to take place at night will generate medium levels of noise
- Additional information will be provided to directly impacted stakeholders.

#### When

- 7am to 6pm Monday to Saturdays, ongoing
- 6pm to 10pm, Monday to Fridays, ongoing for concrete pours, pile cage deliveries and other minor works
- 24h from Friday 13 March until Friday 20 March 2020.

Indicative only
