

Works Notification

Drainage works and use of a generator Kensington

Monday 26 April to late-May 2021

Works at 1-39 Hobsons Road are progressing to complete the Signalling and Communications Equipment Rooms (SER/CER). As part of these works, a small section of drainage pipes will be installed within the site. A temporary generator will be required to operate 24/7 to redirect water while these works are undertaken.

What we are doing

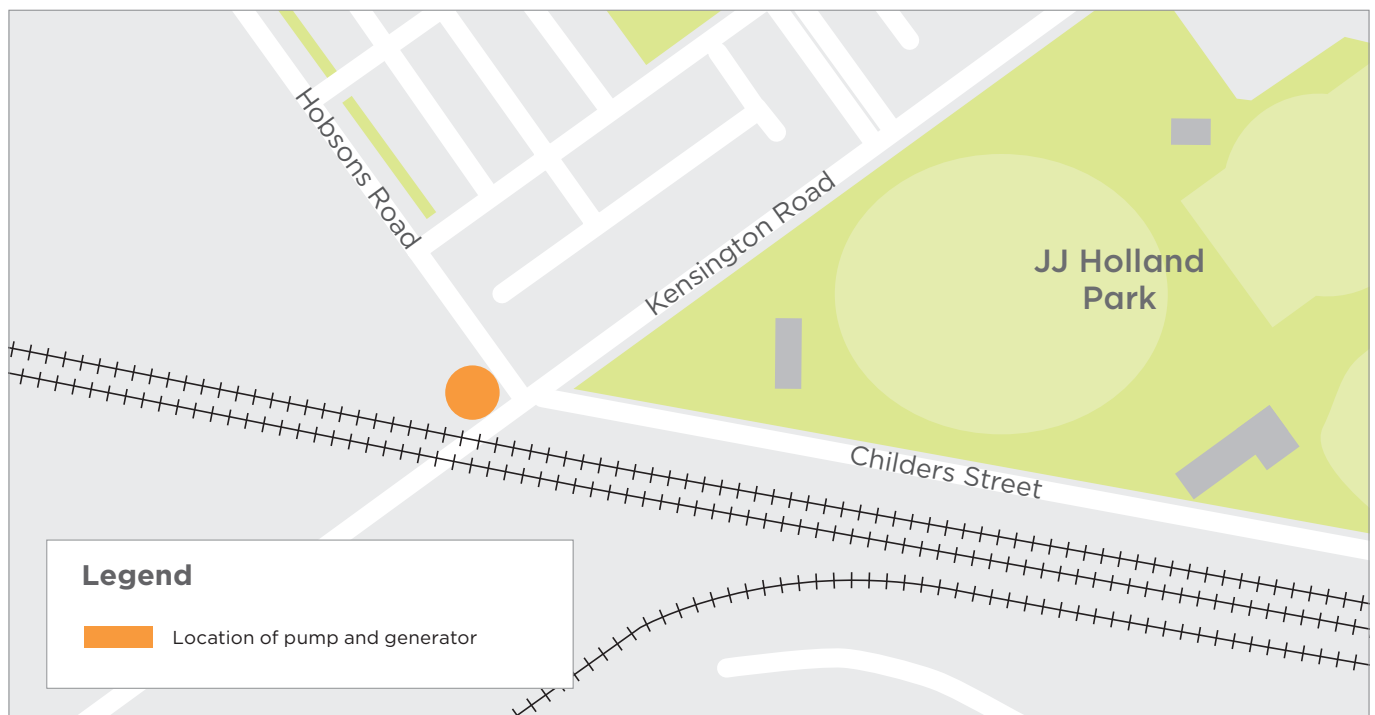

- Installing a new section of drainage at 1-39 Hobsons Road
- A generator and pump is required to temporarily divert water.

When

- Monday 26 April to late-May 2021 (works will take place during normal construction hours only)
- A generator operating 24/7 for up to two weeks will power a pump to temporarily divert water while works take place.

What you should be aware of

- The generator and pump will be located on the corner of Hobsons Road and Kensington Road within the 1-39 Hobsons Road site
- Due to the nature of these works, the generator cannot be located in a different location
- The generator will be surrounded by acoustic blankets to reduce noise
- Some low levels of noise may be noticeable to nearby residents.

Health and safety

Works on the Metro Tunnel Project are progressing with strict COVIDsafe plans in place.

The health and safety of our workforce and community remains our top priority.
